## Item 8.01 Other Events.

During the second half of 2018, Flowserve Corporation (the "Company") determined that there are meaningful operational synergies and benefits to combining the Engineered Product Division ("EPD") and Industrial Product Division ("IPD") reportable segments into one reportable segment, Flowserve Pump Division ("FPD"). The reorganization of the segments reflects how the Company's chief operating decision maker (its Chief Executive Officer) regularly reviews financial information to allocate resources and assess performance. During the quarter ended March 31, 2019 the reorganization was implemented and as a result, beginning with the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2019, the Company will report its financial information reflecting the two operating segment structure, FPD and Flow Control Division ("FCD"), and prior periods will be retrospectively adjusted as periodic reports are filed to conform to the new reportable segment composition.

To assist investors in comparing the Company's historical segment financial information with the Company's future segment financial information, Exhibit 99.1 filed with this Current Report on Form 8-K includes retrospectively adjusted supplemental unaudited historical segment financial information for FPD and eliminations and all other (which includes the Company's corporate headquarters costs and other minor entities that do not constitute separate segments) for each of the four quarters of the year ended December 31, 2018, and for each of the years ended December 31, 2018, 2017 and 2016.

The information included in this Form 8-K is presented for information purposes only in connection with the reporting changes described above. The revisions do not represent a restatement of previously issued financial statements. As a result, the information in this Form 8-K, including exhibits, should be read in conjunction with the sections of our Annual Report on Form 10-K for the year ended December 31, 2018 (the "2018 10-K") and in conjunction with information disclosed in our Securities and Exchange Commission filings made after the date of the 2018 10-K, including our quarterly filings on Forms 10-Q.
