## Forward Looking Statements and Non-GAAP Measures

Safe Harbor Statement: This presentation includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. Words or phrases such as, "may," "should," "expects," "could," "intends," "plans," "anticipates," "estimates," "believes," "forecasts," "predicts" or other similar expressions are intended to identify forward-looking statements, which include, without limitation, earnings forecasts, statements relating to our business strategy and statements of expectations, beliefs, future plans and strategies and anticipated developments concerning our industry, business, operations and financial performance and condition.

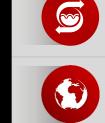

The forward-looking statements included in this presentation are based on our current expectations, projections, estimates and assumptions. These statements are only predictions, not guarantees. Such forwardlooking statements are subject to numerous risks and uncertainties that are difficult to predict. These risks and uncertainties may cause actual results to differ materially from what is forecast in such forwardlooking statements, and include, without limitation, the following: a portion of our bookings may not lead to completed sales, and our ability to convert bookings into revenues at acceptable profit margins; changes in global economic conditions and the potential for unexpected cancellations or delays of customer orders in our reported backlog; our dependence on our customers' ability to make required capital investment and maintenance expenditures; if we are not able to successfully execute and realize the expected financial benefits from our strategic transformation and realignment initiatives, our business could be adversely affected; risks associated with cost overruns on fixed-fee projects and in taking customer orders for large complex custom engineered products; the substantial dependence of our sales on the success of the oil and gas, chemical, power generation and water management industries; the adverse impact of volatile raw materials prices on our products and operating margins; economic, political and other risks associated with our international operations, including military actions, trade embargoes, epidemics or pandemics or changes to tariffs or trade agreements that could affect customer markets, particularly North African, Russian and Middle Eastern markets and global oil and gas producers, and non-compliance with U.S. export/re-export control, foreign corrupt practice laws, economic sanctions and import laws and regulations; increased aging and slower collection of receivables, particularly in Latin America and other emerging markets; our exposure to fluctuations in foreign currency exchange rates, including in hyperinflationary countries such as Venezuela and Argentina; our furnishing of products and services to nuclear power plant facilities and other critical processes; potential adverse consequences resulting from litigation to which we are a party, such as litigation involving asbestos-containing material claims; expectations regarding acquisitions and the integration of acquired businesses; our relative geographical profitability and its impact on our utilization of deferred tax assets, including foreign tax credits; the potential adverse impact of an impairment in the carrying value of goodwill or other intangible assets; our dependence upon third-party suppliers whose failure to perform timely could adversely affect our business operations; the highly competitive nature of the markets in which we operate; environmental compliance costs and liabilities; potential work stoppages and other labor matters; access to public and private sources of debt financing; our inability to protect our intellectual property in the U.S., as well as in foreign countries; obligations under our defined benefit pension plans; our internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls, or fraud; the recording of increased deferred tax asset valuation allowances in the future or the impact of tax law changes on such deferred tax assets could affect our operating results; our information technology infrastructure could be subject to service interruptions, data corruption, cyber-based attacks or network security breaches, which could disrupt our business operations and result in the loss of critical and confidential information; ineffective internal controls could impact the accuracy and timely reporting of our business and financial results; and other factors described from time to time in our filings with the Securities and Exchange Commission.

All forward-looking statements included in this presentation are based on information available to us on the date hereof, and we assume no obligation to update any forward-looking statement.

The Company reports its financial results in accordance with U.S. generally accepted accounting principles (GAAP). However, management believes that non-GAAP financial measures which exclude certain non-recurring items present additional useful comparisons between current results and results in prior operating periods, providing investors with a clearer view of the underlying trends of the business. Management also uses these non-GAAP financial measures in making financial, operating, planning and compensation decisions and in evaluating the Company's performance. Throughout our materials we refer to non-GAAP measures as "Adjusted." Non-GAAP financial measures, which may be inconsistent with similarly captioned measures presented by other companies, should be viewed in addition to, and not as a substitute for, the Company's reported results prepared in accordance with GAAP.

We have provided tables in the appendix that reconcile these non-GAAP measures to their corresponding GAAP-based measures.

Distinguished history of flow control expertise with a heritage of more than 225 years

**Diversified business model – geographies, end markets and products** 

Three consecutive years of bookings growth

Significant installed base provides recurring aftermarket opportunities

Financial Strength

Markets

Transforming Flowserve to unlock full potential and capitalize on opportunities in any market environment

2.0

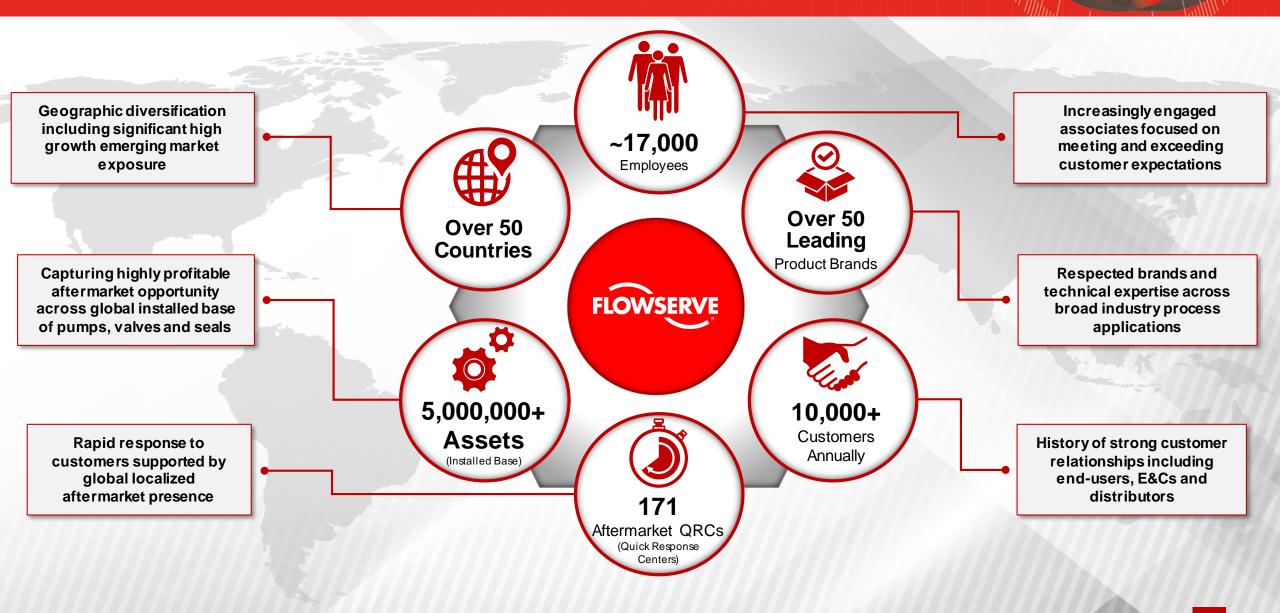

Strong financial and cash flow generation progress since 2017, with meaningful improvement expected

Disciplined yet opportunistic capital allocation approach

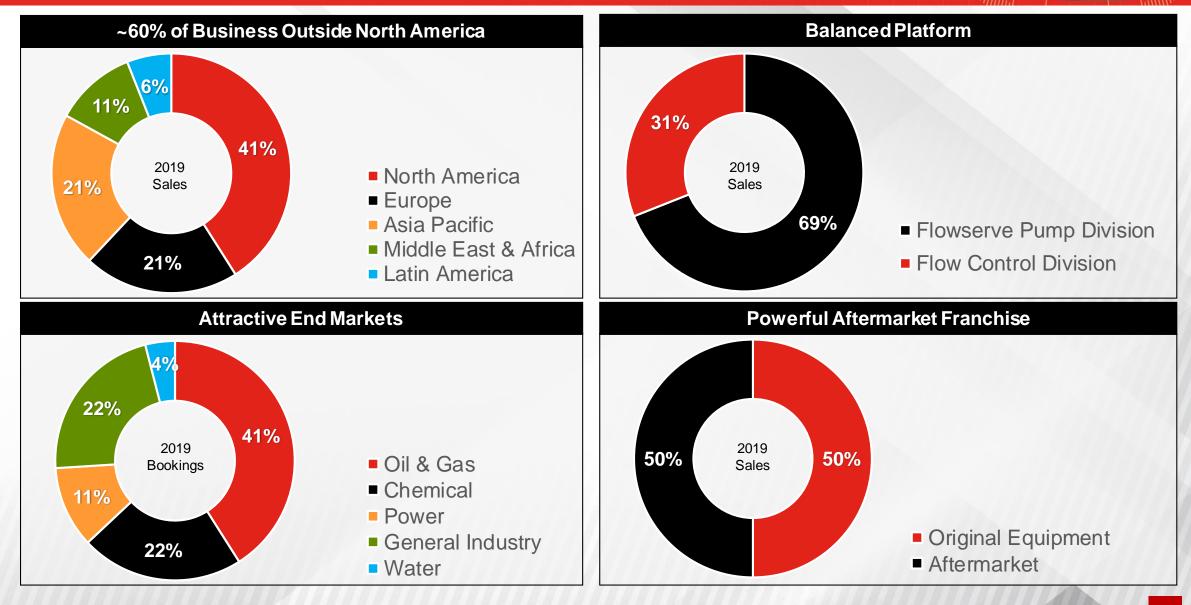

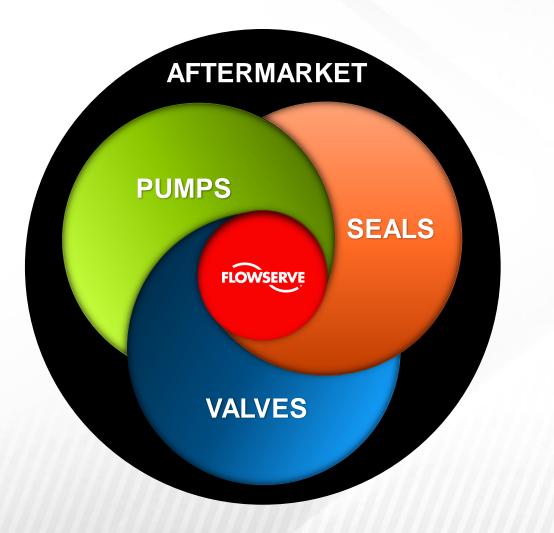

## **Diversified Business Model**

# A Comprehensive, Pure-Play Flow Control Company

#### Highlights

- Only company with significant global presence in pumps, valves and seals
- Unmatched aftermarket capabilities to serve customers across industries and geographies
  - Enterprise Frame Agreements
  - LifeCycle Advantage Agreements
- Leveraging portfolio breadth of mission-critical products and services to deliver enhanced value to our customers
- Estimated Total Available Market is \$145 billion\*

<sup>\*</sup> Company estimate from multiple industry sources.

## Historical Performance

#### Industry Timeline

#### 2010-2014: Post Financial Crisis

- Recovery period post-financial crisis
- Reasonable capital investment and solid maintenance spend
- Excess capacity in the Flow Control industry limited pricing power

#### 2015-2017: Industrial Recession

- Deep cuts in capital investment and deferred maintenance spend
- Flowserve introduced and largely completed significant realignment program to reduce fixed manufacturing costs and footprint
- Unable to reduce costs as quickly as market fell lack of flexibility

## 2018+: Stabilization and Growth

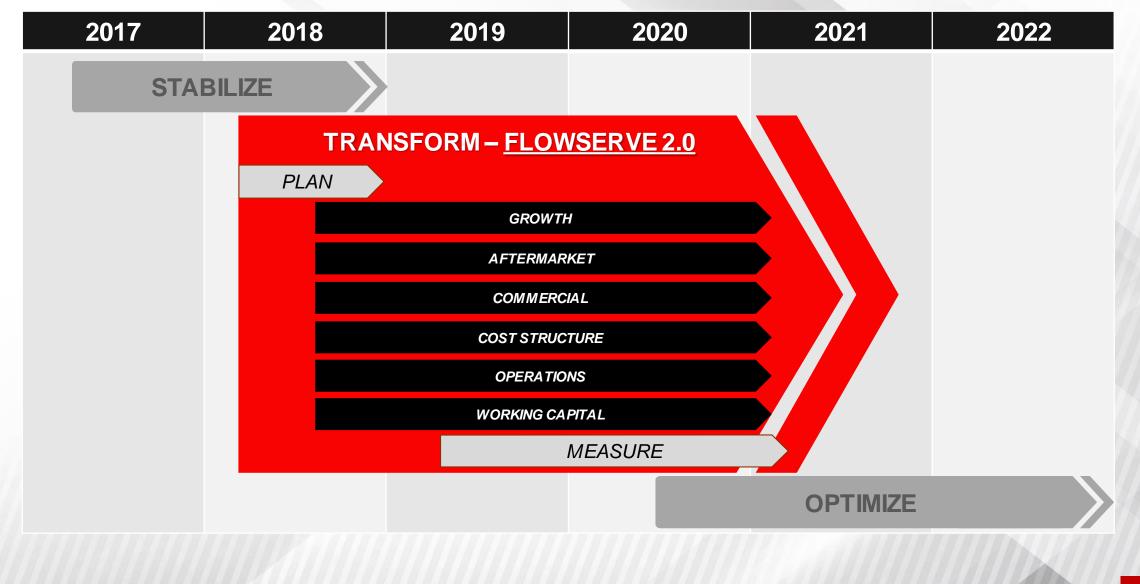

- Flowserve 2.0 transformation to drive more efficient operating model, above market growth and improved operational excellence, and build the platform for M&A
- Focused on cash flow improvement and shareholder value creation

## Flowserve has proven its ability to deliver and is on a path to do so again

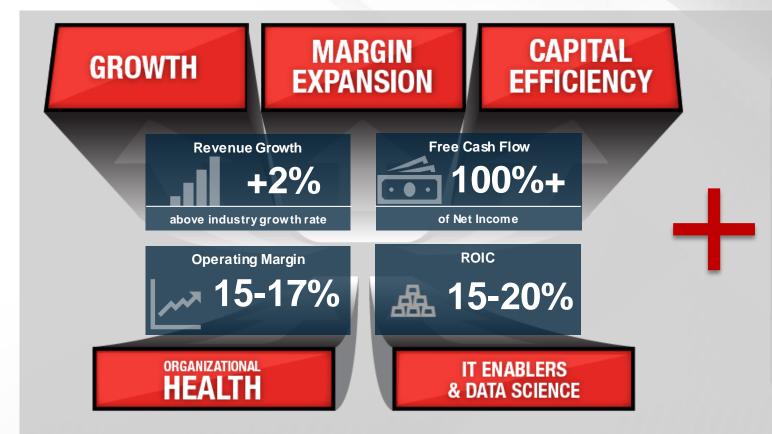

\* EPS and Operating margin adjusted for realignment and transformation costs, below -the-line foreign exchange impacts and other discrete items for 2015-2019. Please see appendix for reconciliation.

## The Transformation Journey

#### **Operating System**

- Constructing Flowserve 2.0
  operating model
- Developing a flexible cost structure for any environment
- Creating a powerful growth
  platform

## **Building a sustainable enterprise**

# Progress Towards Long-Term Targets

(a) Reported in conformity with U.S. GAAP

(1) Includes \$71.3 million of realignment charges, \$26.0 million of Brazil asset impairment charges, \$141.3 million gain on sale of businesses and \$4.9 million for pension expense in excess of service cost

(2) Tax impacts of realignment including exit tax, Brazil asset impairment charge and gain on sale of businesses. Also comprises \$18.6 million of interest expense tax shield, \$5.7 million for non-operating impacts,

\$115.3 million tax charge related to the U.S. Tax Cuts and Jobs Act of 2017 and certain tax valuation allowances totaling \$43.1 million.

(3) Invested Capital is a two-year average of the current and prior year periods

(4) Average Invested Capital is the sum of allowance for doubtful accounts, short- and long-term debt, and total equity minus cash and cash equivalents

(5) Includes \$53.9 million of realignment charges, \$17.4 million of FPD divestiture write-down of assets, \$41.2 million of Flowserve 2.0 transformation costs, \$7.3 million of ASC 606 adoption costs, \$7.7 million loss on sale from the divestiture of two FPD locations and related product lines and \$1.3 million for service cost in excess of pension expense

(6) Includes tax impacts of: realignment, write-down of assets, Flowserve 2.0 transformation costs, ASC 606 adoption costs, and loss on sale. Also comprises \$15.0 million of interest expense tax shield and \$3.4 million for non-operating impacts

(7) Includes \$7.9 million of realignment charges, \$28.0 million of Flowserve 2.0 transformation costs and \$1.2 million for pension expense in excess of service cost

(8) Tax impacts of realignment and Flowserve 2.0 transformation costs. Also comprises \$13.7 million of interest expense tax shield and \$2.3 million for non-operating impacts.

Note: Net Operating Profit After Taxes (NOPAT), Average Invested Capital and Return on Invested Capital (ROIC) are non-GAAP measures
