THE DURIRON COMPANY, INC.
Notes to Consolidated Financial Statements
(dollars presented in tables in thousands except per share data)

1. Inventories.

The amount of inventories and the method of determining costs for the quarter ended June 30, 1994 and the year ended December 31, 1993 were as follows:

	Domestic Inventories (LIFO)	Foreign Inventories (FIFO)	Total Inventories
June 30, 1994			
Raw materials	\$ 245	\$ 820	\$ 1,065
Work in process and finished goods	36,354	28,311	64,665
	<u>\$ 36,599</u>	<u>\$ 29,131</u>	<u>\$ 65,730</u>
December 31, 1993			
Raw materials	\$ 303	\$ 695	\$ 998
Work in process and finished goods	35,328	18,674	54,002
	<u>\$ 35,631</u>	<u>\$ 19,369</u>	<u>\$ 55,000</u>

LIFO inventories at current cost are \$26,317,000 and \$26,341,000 higher than reported at June 30, 1994 and December 31, 1993, respectively. During 1993 certain inventory quantities were reduced which resulted in a liquidation of LIFO inventory quantities carried at lower costs prevailing in prior years. The effect was to increase net earnings for the year by \$2,792,000.

2. Shareholders' equity. There are authorized 30,000,000 shares of \$1.25 par value common stock and 1,000,000 shares of \$1.00 par value preferred stock. Changes in the six months ended June 30, 1993 and 1994 were as follows:

	Common stock	Capital in excess of par value	Retained earnings	Equity adjustments	Total shareholders' equity
Balance at December 31, 1992	\$ 15,745	10,994	94,066	(678)	\$ 120,127
Net earnings			6,096		6,096

Cash dividends			(3,783)		(3,783)
Net shares issued (27,734) under stock plans	35	213		26	274
Treasury stock					0
Foreign currency translation adjustment				(1,077)	(1,077)
Balance at June 30, 1993	\$ 15,780	11,207	96,379	(1,729)	\$ 121,637
Balance at December 31, 1993	\$ 15,794	11,433	102,600	(2,256)	\$ 127,571
Net earnings			7,777		7,777
Cash dividends			(3,984)		(3,984)
Shares issued for three-for-two stock split	7,897	(7,897)			0
Net shares issued (26,715) under stock plans	33	12		58	103
Foreign currency translation adjustment				1,447	1,447
Balance at June 30, 1994	\$ 23,724	3,548	106,393	(751)	\$ 132,914

8

The Board of Directors at a regular meeting on February 10, 1994 authorized a distribution of shares of common stock of the Company on March 25, 1994, which resulted in a three-for-two stock split effected in the form of a stock dividend for shareholders of record at the close of business on February 25, 1994. No fractional shares were issued in connection with the share distribution. Shareholders otherwise entitled to a fractional share interest received cash in lieu of issuing fractional shares.

Net earnings per share and dividends per share have been adjusted to reflect retroactively the share distribution which had the effect of a three-for-two stock split on March 25, 1994.

As of June 30, 1994, 1,372,000 shares of common stock were reserved for exercise of stock options and grants of restricted shares.

3. Dividends.

Dividends paid during the quarters ended June 30, 1994 and 1993 were based on 18,976,824 and 18,920,955 respectively, common shares outstanding on the applicable dates of record.

4. Earnings per share.

Earnings per share for the quarters ended June 30, 1994 and 1993 were based on average common shares and common share equivalents outstanding of 19,145,313 and 19,075,010, respectively.

5. Earnings restatement.

The 1993 results have been restated to reflect early compliance with SFAS No. 112, "Employers Accounting for Postemployment Benefits." Compliance with the principles established in this standard resulted in a pretax \$.6 million, or \$.02 per share, cumulative loss on a change in accounting principle, which represents the accumulated postemployment benefit obligation as of January 1, 1993.

6. Contingencies.

The Company has received notification alleging potential involvement at several former public waste disposal sites which may be subject to remediation. The sites are in various stages of evaluation by federal and state environmental authorities. The projected cost of remediating these sites, as well as the Company's alleged "share" allocation, is uncertain and speculative until all studies have been completed and the parties have either negotiated an amicable resolution or the matter has been judicially resolved. At each site, there are many other parties who have similarly been identified, and the identification and location of additional parties is continuing under applicable federal or state law. Based on the Company's preliminary information about the waste disposal practices at these sites and the environmental regulatory process in general, the Company believes that it is likely that ultimate remediation liability costs of each site will be apportioned among all liable parties, including site owners and waste transporters, according to the volumes and/or toxicity of the wastes shown to have been disposed of at the sites.

The Company also owns and formerly operated a captive spent foundry sand disposal site near its Dayton foundry. Pursuant to a consent decree

with the State of Ohio, an independent consultant was selected by the State and engaged to determine the extent of environmental contamination at the site. The consultant has completed its investigation and submitted its report to the State which concludes, in general, that no environmental contamination attributable to the Company was found at this site. The Company has not received response from the State to this report and cannot predict what that response, if any, will be.

The Company is also a defendant in a number of products liability lawsuits which are insured, subject to applicable deductibles. The Company has fully accrued for each such lawsuit the cost of the loss reserve within the applicable deductible established by the insurer. The Company has additionally accrued a limited general reserve against possible increases in the Company's liability exposure if further adverse facts

9

develop during the lawsuits. Given the inherent volatility and uncertainty of any products liability litigation, there is a possibility of further increases in the costs of resolving these claims, although the Company has no current reason to believe that any such increase is probable or quantifiable.

Although none of the aforementioned gives rise to any additional liability that can now be reasonably estimated, it is possible that the Company could incur additional costs in the range of \$50,000 to \$500,000 over the upcoming five years to fully resolve these matters. The Company accrued the minimum end of this range in 1993. In determining this estimated range of contingent liability, the Company has not discounted to present value nor offset any possible insurance recoveries against such range. The Company will continue to evaluate these contingent loss exposures and, if they develop, recognize expense as soon as such losses can be reasonably estimated.

The financial information contained in this report is unaudited, but, in the opinion of the Company, all adjustments (consisting of normal recurring accruals) which are necessary for a fair presentation of the operating results for the period have been made.

10

Management's Discussion and Analysis
of Financial Condition and Results of Operations

Liquidity and Capital Resources - Six Months Ended June 30, 1994

The Company's capital structure, consisting of long-term debt, deferred items and shareholders' equity, continues to enable the Company to finance short-and long-range business objectives. At June 30, 1994, long-term debt represented 19.3% of the Company's capital structure, compared to 17.3% at December 31, 1993. The increase reflects long-term debt borrowed to purchase Sereg Vannes S.A., an automatic control valve manufacturer located in Massy, France. The combination of long-term debt and internal cash were utilized to acquire Sereg Vannes. Based upon a twelve month rolling average, the interest coverage ratio of the Company's indebtedness was 7.3 at June 30, 1994, compared with 7.9 for the twelve months ended December 31, 1993.

Capital spending in 1994 is expected to be approximately \$14.0 million, compared with \$8.9 million in 1993. The 1993 expenditures were unusually low as many of the Company's manufacturing and international expansion programs were completed in 1992. The 1994 expenditures will be largely devoted to manufacturing equipment for replacement and new product introductions and improved information systems at Valtek.

The Company's liquidity position is reflected in a current ratio of 2.6 to 1 at June 30, 1994. This compares to 3.1 to 1 at December 31, 1993. Cash and cash equivalents decreased to \$8.6 million from \$22.6 million at December 31, 1994. The reduction in the Company's cash balance reflects the purchase of Mecair SpA in Milan, Italy and the purchase of Sereg Vannes S.A. At June 30, 1994, the Company had available \$8.2 million of lines of credit and \$13.4

million under revolving credit agreements, and believes that available cash and these lines of credit arrangements will be adequate to fund operating cash needs throughout 1994.

Results of Operations - Six Months Ended June 30, 1994

Net sales for the six months ended June 30, 1994 were a record \$163.7 million, compared to net sales of \$152.6 million for the same period in 1993. The increase in sales reflects the acquisitions of Mecair and Sereg Vannes as well as increased sales of pumps, manual valves and valve automation products in North America. Foreign contributions to consolidated net sales were 29.3% and 24.6% for the six month periods ended June 30, 1994 and 1993, respectively. The increase in foreign contributions reflects the impact of the Mecair and Sereg Vannes acquisitions. For the six months ended June 30, 1994, the Company's U.S. operations had export sales of \$12.6 million, compared to \$10.2 million for the same period in 1993. As a result, net sales to foreign customers were 37.0% and 31.3% for the first six months of 1994 and 1993, respectively.

Gross incoming business for the six months ended June 30, 1994 was a record \$166.0 million. This compares to \$157.1 million for the same period in 1993. The increase reflects the 1994 acquisitions and improved business in the North American market for process pumps, manual valves and valve automation products. Partially offsetting the increases were reduced levels of business at Valtek and Kammer where large jobs were booked during the first six months of 1993. Backlog at June 30, 1994 was \$69.7 million, compared with a backlog of \$61.0 million at December 31, 1993.

11

Cost of sales as a percentage of net sales was 62.8% for the six months ended June 30, 1994. This compares to 62.8% for the same period in 1993. Cost of sales in 1994 was favorably impacted by improved burden absorption due to higher levels of plant utilization at the Company's core U.S. operations as well as the continuing positive effects of cost reduction and productivity improvement programs. Offsetting these were the negative effects of continued competitive pricing pressures, particularly in Valtek's automatic control valve business, and transitional costs associated with the acquisition of Sereg Vannes.

Selling and administrative expenses as a percentage of net sales for the six months ended June 30, 1994 were 25.0%. This compares to 26.0% for the same period in 1993. The decrease in expense as a percentage of net sales is consistent with the Company's plan to leverage expense in 1994. Selling and administrative expense in dollars increased between periods due to consolidation of the Mecair and Sereg Vannes expense. Excluding the acquisitions, selling and administrative expense was slightly below the comparable period in 1993.

Other expense, net, was \$831,000 for the six months ended June 30, 1994. This compares to expense of \$473,000 for the same period in 1993. The increase in expense reflects foreign currency losses in 1994 compared with gains recognized in 1993 as well as an increase in accrued incentive compensation expense in 1994 compared with the first six months of 1993.

The effective tax rate was 37.5% for the six month period ended June 30, 1994. This compares to 37.0% for the same period in 1993. The increase in the tax rate in 1994 reflects the effect of the Revenue Reconciliation Act of 1993. The 1994 tax rate was reduced from 37.9% during the second quarter as a result of favorable resolution on a state tax issue with the State of Utah.

Net earnings for the six months ended June 30, 1994 were \$7.8 million, or \$.41 per share, which compares to 1993 earnings of \$6.1 million, or \$.32 per share, after the cumulative effect of a change in method of accounting for postemployment benefits. The increase in profit resulted from improved burden absorption, leveraging of selling and administrative expenses and adjustments in the Company's European operations which resulted in the restoration of profits within those operations.

Results of Operations - Three Months Ended June 30, 1994

Net sales for the three months ended June 30, 1994 were a record \$85.6 million, compared to net sales of \$78.2 million for the same period in 1993. The increase reflects the acquisitions and improved pump, valve and valve automation products business in North America. Foreign subsidiary contributions to net sales were 31.6% and 25.7% for the three month periods

ended June 30, 1994 and 1993, respectively. The increase in foreign subsidiary contributions reflects the acquisitions of Mecair and Sereg Vannes.

Incoming business for the second quarter of \$87.8 million was a record. This compares to \$83.7 million for the same period in 1992. The increase in incoming business between comparable periods reflects the acquisitions as well as improved North American pump business.

Cost of sales as a percentage of net sales was 63.3% for the quarterly period ended June 30,

12
1994. This compares to 62.0% for the same period in 1993. The increase in cost of sales between comparable periods resulted from competitive pricing and transitional costs associated with the acquisition of SEREG VANNES. Partially offsetting the increase was improved burden absorption at the Company's core U.S. manufacturing facilities.

Selling and administrative expenses as a percentage of net sales were 24.5%, compared to 26.0% for the same period in 1993. The decrease in expense as a percentage of net sales is consistent with the Company's plan to leverage expense in 1994. Selling and administrative expense in dollars increased between periods due to consolidation of the Mecair and Sereg Vannes expense. Excluding the acquisitions, selling and administrative expense was slightly below the comparable period in 1993.

The effective tax rate was 37.0% for the quarter ended June 30, 1994. This compares to 37.0% for the same period in 1992. The reduction in the tax rate from the first quarter of 1994 reflects favorable resolution of a tax issue with the State of Utah.

Net earnings for the quarter ended June 30, 1994 were \$4.0 million, or \$.21 per share. This compares to 1993 second quarter net earnings of \$3.6 million, or \$.19 per share. Net earnings for future quarters of 1994 and thereafter are uncertain and dependent on general worldwide economic conditions in the Company's major markets and their strong impact on the level of incoming business activity.

13

PART II: Other Information

Other Information

14

PART II
OTHER INFORMATION

ITEMS 1-3 Not Applicable During Reporting Period

ITEM 4 The Company held its Annual Meeting of Shareholders on April 21, 1994. Shareholders there elected Robert E. Frazer, Diane C. Harris and William M. Jordan to new three year terms on the Board of Directors, while also approving the appointment of Ernst & Young as independent public accountants of the Company for 1994. Actual vote tabulations were as follows:

Issue	For	Against	Abstain
-----	---	-----	-----

Election of Directors:			
R. E. Frazer	11,189,030	127,881	0
D. C. Harris	11,190,555	126,356	0
W. M. Jordan	11,192,297	124,613	0
Approval of Ernst & Young	11,253,452	25,445	38,014

Directors remaining in officer were S. C. Mason, J. S. Haddick (Chairman), K. E. Sheehan, R. E. White, C. L. Bates, E. Green, J. F. Schorr and H. A. Shaw.
