

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2019

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE TRANSITION PERIOD FROM \_\_\_\_\_ to \_\_\_\_\_.

Commission File No. 1-13179

**FLOWSERVE CORPORATION**

(Exact name of registrant as specified in its charter)

New York

31-0267900

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

5215 N. O'Connor Blvd., Suite 2300, Irving, Texas

75039

(Address of principal executive offices)

(Zip Code)

972 - 443-6500

(Registrant's telephone number, including area code)

Former name, former address and former fiscal year, if changed since last report: N/A

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of Each Exchange on Which Registered
Common Stock, \$1.25 Par Value	FLS	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).  Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Non-accelerated filer   
Smaller reporting company  Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of July 24, 2019 there were 131,170,103 shares of the issuer's common stock outstanding.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1. Basis of Presentation and Accounting Policies**

**Basis of Presentation**

The accompanying condensed consolidated balance sheet as of June 30, 2019, the related condensed consolidated statements of income and comprehensive income for the three and six months ended June 30, 2019 and 2018, the condensed consolidated statements of stockholders' equity for the three and six months ended June 30, 2019 and 2018 and the condensed consolidated statements of cash flows for the six months ended June 30, 2019 and 2018 of Flowserve Corporation are unaudited. In management's opinion, all adjustments comprising normal recurring adjustments necessary for fair statement of such condensed consolidated financial statements have been made. Where applicable, prior period information has been updated to conform to current year presentation.

The accompanying condensed consolidated financial statements and notes in this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2019 ("Quarterly Report") are presented as permitted by Regulation S-X and do not contain certain information included in our annual financial statements and notes thereto. Accordingly, the accompanying condensed consolidated financial information should be read in conjunction with the audited consolidated financial statements presented in our Annual Report on Form 10-K for the year ended December 31, 2018 ("2018 Annual Report").

*Resegmentation* - We have determined that there are meaningful operational synergies and benefits to combining our previously reported Engineered Product Division ("EPD") and Industrial Product Division ("IPD") segments into one reportable segment, Flowserve Pump Division ("FPD"). During the first quarter of 2019, we implemented a reorganization of our operating segments and as a result we report our financial information reflecting two operating segments, FPD and Flow Control Division ("FCD"). The reorganization of the segments reflects how our chief operating decision maker (Chief Executive Officer) regularly reviews financial information to allocate resources and assess performance.

**Accounting Developments**

***Pronouncements Implemented***

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No.2016-02, "Leases (Topic 842)," ("New Lease Standard"). The New Lease Standard increases transparency and comparability by requiring lessees to recognize right-of-use ("ROU") assets and lease liabilities for operating leases on their consolidated balance sheets. Additionally, expanded disclosures are required to enable users of financial statements to understand the amount, timing and uncertainty of cash flows arising from leases.

We adopted the New Lease Standard effective January 1, 2019, utilizing the modified retrospective approach and elected an initial application date of January 1, 2019. The adoption resulted in an increase to total assets and liabilities due to the recording of lease ROU assets and lease liabilities of approximately \$210 million as of January 1, 2019. The adoption did not materially impact our condensed consolidated results of operations or cash flows. Refer to Note 4 for further discussion of our adoption of the New Lease Standard.

On July 13, 2017, the FASB issued ASU No. 2017-11, "Earnings Per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): (Part I) Accounting for Certain Financial Instruments with Down Round Features, (Part II) Replacement of the Indefinite Deferral for Mandatory Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatory Redeemable Noncontrolling Interests with a Scope Exception." The ASU amends guidance in FASB Accounting Standards Codification ("ASC") 260, Earnings Per Share, FASB ASC 480, Distinguishing Liabilities from Equity, and FASB ASC 815, Derivatives and Hedging. The amendments in Part I of this ASU change the classification analysis of certain equity-linked financial instruments (or embedded features) with down round features. The amendments in this ASU must be applied to annual reporting periods beginning after December 15, 2018. Our adoption of ASU No. 2017-11 effective January 1, 2019 did not have an impact on our condensed consolidated financial condition and results of operations.

On August 28, 2017, the FASB issued ASU No. 2017-12, "Derivatives and Hedging (Topic 815): Targeted improvements of Accounting for Hedging Activities." The purpose of this ASU is to better align a company's risk management activities and financial reporting for hedging relationships. Additionally, the ASU simplifies the hedge accounting requirements and improve the disclosures of hedging arrangements. The amendments in this ASU must be applied to annual reporting periods beginning after December 15, 2019. Early adoption is permitted. Our adoption of ASU No. 2017-12 effective January 1, 2019 did not have an impact on our condensed consolidated financial condition and results of operations.

In February 2018, the FASB issued ASU No. 2018-02, "Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Comprehensive Income ("AOCI')." The ASU and its amendments were issued as a result of the enactment of the U.S. Tax Cuts and Jobs Act of 2017. The amendments of this ASU address the

available options to reclassify stranded tax effects within AOCI to retained earnings in each period in which the effect of the change (or portion thereof) is recorded. Additionally, the ASU outlines the disclosure requirements for releasing income tax effects from AOCI. The ASU is effective for fiscal years beginning after December 15, 2018. The ASU should be applied either in the period of adoption or retrospectively to each period (or periods) in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Cuts and Jobs Act is recognized. We elected not to reclassify the income tax effects of the Tax Cuts and Jobs Act from accumulated comprehensive income to retained earnings.

In July 2018, the FASB issued ASU No. 2018-07, "Compensation - Stock Compensation (Topic 718) - Improvements to Non-employee Share-based Payment Accounting." The amendments of this ASU apply to all share-based payment transactions to non-employees, in which a grantor acquires goods or services to be used or consumed in a grantor's own operations, accounted under ASC 505-50, Equity-Based Payments to Non-Employees. Under the amendments of ASU 2018-07, most of the guidance on compensation to non-employees would be aligned with the requirements for shared based payments granted to employees, Topic 718. The ASU is effective for fiscal years beginning after December 15, 2018. Our adoption of ASU No. 2018-07-12 effective January 1, 2019 did not have an impact on our condensed consolidated financial condition and results of operations.

#### ***Pronouncements Not Yet Implemented***

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments-Credit Losses (Topic 326), Measurement of Credit Losses on Financial Instruments." The ASU requires, among other things, the use of a new current expected credit loss ("CECL") model in order to determine allowances for doubtful accounts with respect to accounts receivable and contract assets. The CECL model requires that companies estimate the lifetime of an expected credit loss with respect to receivables and contract assets and record allowances that, when deducted from the balance of the receivables, represent the net amounts expected to be collected. Companies will also be required to disclose information about how the allowances were developed, including changes in the factors that influenced our estimate of expected credit losses and the reasons for those changes. The amendments of the ASU are effective for fiscal years beginning after December 15, 2019. We are currently evaluating the impact of ASU No. 2016-13 and other related ASUs on our consolidated financial condition and results of operations.

In January 2017, the FASB issued ASU No. 2017-04, "Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment." The amendments in this ASU allow companies to apply a one-step quantitative test and record the amount of goodwill impairment as the excess of a reporting unit's carrying amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit. The amendments of the ASU are effective for annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. We are currently evaluating the impact of ASU No. 2017-04 on our consolidated financial condition and results of operations.

In August 2018, the FASB issued ASU No. 2018-13, "Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement." The amendments of the ASU modify the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosure information requirements for assets and liabilities measured at fair value in the statement of financial position or disclosed in the notes to financial statements. The ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019, with early adoption permitted for the removed disclosures and delayed adoption until fiscal year 2020 permitted for the new disclosures. The removed and modified disclosures will be adopted on a retrospective basis and the new disclosures will be adopted on a prospective basis. We are currently evaluating the impact of ASU No. 2018-13 on our consolidated financial condition and results of operations.

In August 2018, the FASB issued ASU No. 2018-14, "Compensation-Retirement Benefits-Defined Benefit Plans-General (Subtopic 715-20): Disclosure Framework-Changes to the Disclosure Requirements for Defined Benefit Plans." The ASU amends the disclosure requirements by adding, clarifying, or removing certain disclosures for sponsor defined benefit pension or other postretirement plans. The amendments are effective for fiscal years ending after December 15, 2020 and the amendments should be applied retrospectively to all periods presented. We are currently evaluating the impact of ASU No. 2018-14 on our consolidated financial condition and results of operations.

In August 2018, the FASB issued ASU No. 2018-15, "Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract." The ASU addresses how entities should account for costs associated with implementing a cloud computing arrangement that is considered a service contract. Per the amendments of the ASU, implementation costs incurred in a cloud computing arrangement that is a service contract should be accounted for in the same manner as implementation costs incurred to develop or obtain software for internal use as prescribed by guidance in ASC 350-40. The ASU requires that implementation costs incurred in a cloud computing arrangement be capitalized rather than expensed. Further, the ASU specifies the method for the amortization of costs incurred during implementation, and the manner in which the unamortized portion of these capitalized implementation costs should be evaluated for impairment. The ASU also provides guidance on how to present such implementation costs in the financial statements and also creates additional disclosure requirements. The amendments are effective for fiscal years beginning after

December 15, 2019. Early adoption of the ASU requirements is permitted, including adoption in any interim period. The amendments in this ASU should be applied either retrospectively or prospectively to all implementation costs incurred after the date of adoption. We are currently evaluating the impact of ASU No. 2018-15 on our consolidated financial condition and results of operations.

In October 2018, the FASB issued ASU No. 2018-17, "Consolidation (Topic 810): Targeted Improvements to Related Party Guidance for Variable Interest Entities ("VIEs")." The standard reduces the cost and complexity of financial reporting associated with VIEs. The new standard amends the guidance for determining whether a decision-making fee is a VIE. The amendments require organizations to consider indirect interests held through related parties under common control on a proportional basis rather than as the equivalent of a direct interest in its entirety as currently required in GAAP. The amendments of this ASU are effective for fiscal years beginning after December 15, 2019. We are currently evaluating the impact of ASU No. 2018-17 on our consolidated financial condition and results of operations.

In November 2018, the FASB issued ASU No. 2018-18, "Collaborative Arrangements (Topic 808): Clarifying the Interaction Between Topic 808 and Topic 606." The ASU clarifies the interaction between the guidance for certain collaborative arrangements and the New Revenue Standard. The amendments of the ASU provide guidance on how to assess whether certain transactions between collaborative arrangement participants should be accounted for within the New Revenue Standard. The ASU also provides more comparability in the presentation of revenue for certain transactions between collaborative arrangement participants. Parts of the collaborative arrangement that are not in the purview of the revenue recognition standard should be presented separately. The amendments are effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. We are currently evaluating the impact of ASU No. 2018-18 on our consolidated financial condition and results of operations.

## **2. Revenue Recognition**

We enter into contracts with customers typically having multiple commitments of goods and services including any combination of designing, developing, manufacturing, modifying, installing and commissioning of flow management equipment and providing services and parts related to the performance of such products. Control transfers over time when the customer is able to direct the use of and obtain substantially all of the benefits of our work as we perform.

Our primary method for recognizing revenue over time is the percentage of completion ("POC") method. Revenue from products and services transferred to customers over time accounted for approximately 19% and 23% of total revenue for the three month periods ended June 30, 2019 and 2018, respectively, and 18% and 23% for the six month periods ended June 30, 2019 and 2018, respectively. If control does not transfer over time, then control transfers at a point in time. We recognize revenue at a point in time at the level of each performance obligation based on the evaluation of certain indicators of control transfer, such as title transfer, risk of loss transfer, customer acceptance and physical possession. Revenue from products and services transferred to customers at a point in time accounted for approximately 81% and 77% of total revenue for the three month periods ended June 30, 2019 and 2018, respectively, and 82% and 77% for the six month periods ended June 30, 2019 and 2018, respectively. Refer to Note 2 to our consolidated financial statements included in our 2018 Annual Report for a more comprehensive discussion of our policies and accounting practices of revenue recognition.

### ***Disaggregated Revenue***

We conduct our operations through two business segments based on the type of product and how we manage the business:

- FPD for custom, highly-engineered pumps, pre-configured industrial pumps, pump systems, mechanical seals, auxiliary systems and replacement parts and related services; and
- FCD for engineered and industrial valves, control valves, actuators and controls and related services.

Our revenue sources are derived from our original equipment manufacturing and our aftermarket sales and services. Our original equipment revenues are generally related to originally designed, manufactured, distributed and installed equipment that can range from pre-configured, short-cycle products to more customized, highly-engineered equipment ("Original Equipment"). Our aftermarket sales and services are derived from sales of replacement equipment, as well as maintenance, advanced diagnostic, repair and retrofitting services ("Aftermarket"). Each of our two business segments generate Original Equipment and Aftermarket revenues.

The following table presents our customer revenues disaggregated by revenue source:

<b>Three Months Ended June 30, 2019</b>			
(Amounts in thousands)	<b>FPD</b>	<b>FCD</b>	<b>Total</b>
Original Equipment	\$ 243,625	\$ 248,927	\$ 492,552

	<u>\$ 667,469</u>	<u>\$ 305,660</u>	<u>\$ 973,129</u>

**Six Months Ended June 30, 2019**

(Amounts in thousands)	FPD		FCD		Total
North America (1)	\$	517,506	\$	269,874	\$ 787,380
Latin America(1)		83,373		15,893	99,266
Middle East and Africa		161,710		45,763	207,473
Asia Pacific		238,154		140,401	378,555
Europe		281,982		125,479	407,461
	\$	1,282,725	\$	597,410	\$ 1,880,135

**Six Months Ended June 30, 2018**

(Amounts in thousands)	FPD		FCD		Total
North America (1)	\$	523,429	\$	258,279	\$ 781,708
Latin America(1)		85,137		10,991	96,128
Middle East and Africa		169,836		66,045	235,881
Asia Pacific		266,695		132,573	399,268
Europe		266,412		113,686	380,098
	\$	1,311,509	\$	581,574	\$ 1,893,083

(1) North America represents United States and Canada; Latin America includes Mexico.

On June 30, 2019, the aggregate transaction price allocated to unsatisfied (or partially unsatisfied) performance obligations was approximately \$487 million. We estimate recognition of approximately \$275 million of this amount as revenue in the remainder of 2019 and an additional \$212 million in 2020 and thereafter.

Revenue recognized for performance obligations satisfied (or partially satisfied) in prior periods for the six months ended June 30, 2019 and 2018 was not material.

**Contract Balances**

We receive payment from customers based on a contractual billing schedule and specific performance requirements as established in our contracts. We record billings as accounts receivable when an unconditional right to consideration exists. A contract asset represents revenue recognized in advance of our right to receive payment under the terms of a contract. A contract liability represents our right to receive payment in advance of revenue recognized for a contract.

The following table presents beginning and ending balances of contract assets and contract liabilities, current and long-term, for the six months ended June 30, 2019:

(Amounts in thousands)	Contract Assets, net (Current)	Long-term Contract Assets, net(1)	Contract Liabilities (Current)	Long-term Contract Liabilities(2)
Beginning balance, January 1, 2019	\$ 228,579	10,967	\$ 202,458	\$ 1,370
Revenue recognized that was included in contract liabilities at the beginning of the period	—	—	(108,769)	—
Increase due to revenue recognized in the period in excess of billings	361,384	—	—	—
Increase due to billings arising during the period in excess of revenue recognized	—	—	119,726	—
Amounts transferred from contract assets to receivables	(372,398)	(2,444)	—	—
Currency effects and other, net	(2,125)	45	(3,726)	(360)
Ending balance, June 30, 2019	\$ 215,440	\$ 8,568	\$ 209,689	\$ 1,010

(1) Included in other assets, net.

(2) Included in retirement obligations and other liabilities.

### 3. Dispositions

#### *FPD Business Divestiture*

On June 29, 2018, pursuant to a plan of sale approved by management, we executed an agreement to divest two FPD locations and associated product lines, including the related assets and liabilities. This transaction did not meet the criteria for classification of assets held for sale as of June 30, 2018 due to a contingency that could have potentially impacted the final terms and/or timing of the divestiture. The sale transaction was completed on August 9, 2018. During the twelve months ended December 31, 2018, we recorded a pre-tax charge of \$25.1 million, including a pre-tax charge of \$17.4 million in the second quarter of 2018 and a loss on sale of the business of \$7.7 million in the third quarter of 2018. The second quarter of 2018 pre-tax charge related to write-downs of inventory and long-lived assets to their estimated fair value, of which \$7.7 million was recorded in cost of sales ("COS") and \$9.7 million was recorded in selling, general and administrative ("SG&A"). The third quarter of 2018 pre-tax charge primarily related to working capital changes since the second quarter of 2018 and net cash transferred at the closing date of \$3.7 million. The sale included a manufacturing facility in Germany and a related assembly facility in France. In 2017, net sales related to the business totaled approximately \$42 million, although the business produced an operating loss in each of the previous two fiscal years.

### 4. Leases

We adopted the New Lease Standard effective January 1, 2019 utilizing the modified retrospective approach and have elected an initial application date of January 1, 2019. Adoption of the New Lease Standard resulted in an increase to total assets and liabilities due to the recording of lease ROU assets and lease liabilities of approximately \$210 million as of January 1, 2019. Our adoption of the New Lease Standard included modification of certain accounting policies and practices, business processes, systems and controls in order to support compliance with the requirements.

We elected the package of three practical expedients for transition, which include the carry forward of our leases without reassessing whether any contracts are leases or contain leases, lease classification and initial direct costs. We elected the transition practical expedient to apply hindsight when determining the lease term and when assessing impairment of ROU assets at the adoption date, which allows us to update our assessments according to new information and changes in facts and circumstances that have occurred since lease inception. We have certain land easements that have historically been accounted for as finite-lived intangible assets. We elected the practical expedient related to land easements, allowing us to carry forward our accounting treatment for land easements on existing agreements as intangible assets. Any new or modified land easements will be accounted for as leases under the New Lease Standard.

#### *Presentation of Leases*

We have operating and finance leases for certain manufacturing facilities, offices, service and quick response centers, machinery, equipment and automobiles. Our leases have remaining lease terms of up to 34 years. The terms and conditions of our leases may include options to extend or terminate the lease which are considered and included in the lease term when these options are reasonably certain of exercise.

We determine if a contract is (or contains) a lease at inception by evaluating whether the contract conveys the right to control the use of an identified asset. For all classes of leased assets, we have elected the practical expedient to account for any non-lease components in the contract together with the related lease component in the same unit of account. For lease contracts containing more than one lease component, we allocate the contract consideration to each of the lease components on the basis of relative standalone prices in order to identify the lease payments for each lease component.

ROU assets and lease liabilities are recognized in our condensed consolidated balance sheets at the commencement date based on the present value of remaining lease payments over the lease term. Additionally, ROU assets include any lease payments made at or before the commencement date, as well as any initial direct costs incurred, and are reduced by any lease incentives received. As most of our operating leases do not provide an implicit rate, we apply our incremental borrowing rate to determine the present value of remaining lease payments. Our incremental borrowing rate is determined based on information available at the commencement date of the lease.

Operating leases are included in operating lease right-of-use assets, net and operating lease liabilities in our condensed consolidated balance sheets. Finance leases are included in property plant and equipment, debt due within one year and long-term debt due after one year in our condensed consolidated balance sheets.

For all classes of leased assets, we have applied an accounting policy election to exclude short-term leases from recognition in our condensed consolidated balance sheets. A short-term lease has a lease term of 12 months or less at the commencement date and does not include a purchase option that is reasonably certain of exercise. We recognize short-term lease expense in our condensed consolidated income statements on a straight-line basis over the lease term. Our short-term lease expense and short-term lease commitments as of June 30, 2019 are immaterial.

We have certain lease contracts with terms and conditions that provide for variability in the payment amount based on changes in facts or circumstances occurring after the commencement date. These variable lease payments are recognized in our condensed consolidated income statements as the obligation is incurred.

We have certain lease contracts where we provide a guarantee to the lessor that the value of an underlying asset will be at least a specified amount at the end of the lease. Estimated amounts expected to be paid for residual value guarantees are included in lease liabilities and ROU assets.

As of June 30, 2019, we had \$37.7 million of legally binding minimum lease payments for operating leases signed but not yet commenced. We did not have material subleases, leases that imposed significant restrictions or covenants, material related party leases or sale-leaseback arrangements.

Other information related to our leases is as follows:

(Amounts in thousands)	<b>June 30, 2019</b>
<b>Operating Leases:</b>	
ROU assets recorded under operating leases	\$ 208,534
Accumulated amortization associated with operating leases	(18,568)
Total operating leases ROU assets, net	<u>\$ 189,966</u>
Liabilities recorded under operating leases (current)	\$ 36,272
Liabilities recorded under operating leases (non-current)	153,401
Total operating leases liabilities	<u>\$ 189,673</u>
<b>Finance Leases:</b>	
ROU assets recorded under finance leases	\$ 18,017
Accumulated depreciation associated with finance leases	(8,469)
Total finance leases ROU assets, net(1)	<u>\$ 9,548</u>
Total finance leases liabilities(2)	<u>\$ 9,671</u>

The costs components of operating and finance leases are as follows:

(Amounts in thousands)	<b>Three Months Ended June 30, 2019</b>	<b>Six Months Ended June 30, 2019</b>
<b>Operating Lease Costs:</b>		
Fixed lease expense(3)	\$ 14,797	\$ 30,006
Variable lease expense(3)	1,306	2,880

<b>Finance Lease Costs:</b>		
Depreciation of finance lease ROU assets(3)	\$ 1,130	\$ 2,287
Interest on lease liabilities(4)	73	151
Total finance lease expense	<u>\$ 1,203</u>	<u>\$ 2,438</u>

(1) Included in property plant and equipment, net

(2) Included in debt due within one year and long-term debt due after one year, accordingly

(3) Included in cost of sales and selling, general and administrative expense, accordingly

(4) Included in interest expense

## Supplemental cash flows information as of and for the six months ended June 30, 2019:

(Amounts in thousands, except lease term and discount rate)

Cash paid for amounts included in the measurement of lease liabilities:

Operating cash flows from operating leases(1)	\$	26,448
Financing cash flows from finance leases(2)		2,297
ROU assets obtained in exchange for lease obligations:		
Operating leases	\$	11,983
Finance leases		6,006
Weighted average remaining lease term (in years)		
Operating leases		9 years
Finance leases		3 years
Weighted average discount rate (percent)		
Operating leases		4.5%
Finance leases		3.8%

(1) Included in our condensed consolidated statement of cash flows, operating activities, prepaid expenses and other assets, net and retirement obligations and other

(2) Included in our condensed consolidated statement of cash flows, financing activities, payments under other financing arrangements

Future undiscounted lease payments under operating and finance leases as of June 30, 2019 were as follows (amounts in thousands):

<b>Year ending December 31,</b>	<b>Operating Leases</b>	<b>Finance Leases</b>
2019 (excluding the six months ended June 30, 2019)	\$ 21,528	\$ 2,461
2020	38,288	4,201
2021	29,341	2,689
2022	24,355	1,243
2023	20,827	295
Thereafter	108,196	23
<b>Total future minimum lease payments</b>	<b>\$ 242,535</b>	<b>\$ 10,912</b>
Less: Imputed interest	(52,862)	(1,241)
<b>Total</b>	<b>\$ 189,673</b>	<b>\$ 9,671</b>
Other current liabilities	\$ 36,272	\$ —
Operating lease liabilities	153,401	—
Debt due within one year	—	4,425
Long-term debt due after one year	—	5,246
<b>Total</b>	<b>\$ 189,673</b>	<b>\$ 9,671</b>

The future minimum lease payments as of December 31, 2018 were as follows (amounts in thousands):

<b>Year ending December 31,</b>	
2019	\$ 68,443
2020	49,874
2021	38,446
2022	28,496
2023	21,473
Thereafter	66,518
<b>Total future minimum lease payments</b>	<b>\$ 273,250</b>

## 5. Stock-Based Compensation Plans

We maintain the Flowserve Corporation Equity and Incentive Compensation Plan (the "2010 Plan"), which is a shareholder-approved plan authorizing the issuance of up to 8,700,000 shares of our common stock in the form of restricted shares, restricted share units and performance-based units (collectively referred to as "Restricted Shares"), incentive stock options, non-statutory stock options, stock appreciation rights and bonus stock. Of the 8,700,000 shares of common stock authorized under the 2010 Plan, 1,526,953 were available for issuance as of June 30, 2019. In 2016, the long-term incentive program was amended to allow Restricted Shares granted after January 1, 2016 to employees who retire and have achieved at least 55 years of age and 10 years of service to continue to vest over the original vesting period ("55/10 Provision"). As of June 30, 2019, 114,943 stock options were outstanding, with a grant date fair value of \$2.0 million, which is expected to be recognized over a weighted-average period of approximately one year. No stock options were granted during the six months ended June 30, 2019 and 2018. No stock options vested during the six months ended June 30, 2019 and 2018.

*Restricted Shares* – Awards of Restricted Shares are valued at the closing market price of our common stock on the date of grant. The unearned compensation is amortized to compensation expense over the vesting period of the restricted shares, except for awards related to the 55/10 Provision which are expensed in the period granted. We had unearned compensation of \$38.9 million and \$24.3 million at June 30, 2019 and December 31, 2018, respectively, which is expected to be recognized over a weighted-average period of approximately one year. These amounts will be recognized into net earnings in prospective periods as the awards vest. The total fair value of Restricted Shares vested during the three months ended June 30, 2019 and 2018 was \$2.4 million and \$3.2 million, respectively. The total fair value of Restricted Shares vested during the six months ended June 30, 2019 and 2018 was \$16.3 million and \$13.9 million, respectively.

We recorded stock-based compensation expense of \$5.9 million (\$7.7 million pre-tax) and \$3.4 million (\$4.4 million pre-tax) for the three months ended June 30, 2019 and 2018, respectively. We recorded stock-based compensation expense of \$11.9 million (\$15.3 million pre-tax) and \$6.5 million (\$8.4 million pre-tax) for the six months ended June 30, 2019 and 2018, respectively. Performance-based shares granted in 2016 did not fully vest due to the unachievement of certain performance targets, resulting in 115,302 forfeited shares and a \$4.5 million reduction of stock-based compensation expense for the six months ended June 30, 2019. Performance-based shares granted in 2015 did not vest due to performance targets not being achieved, resulting in 100,033 forfeited shares and a \$5.4 million reduction of stock-based compensation expense for the six months ended June 30, 2018.

The following table summarizes information regarding Restricted Shares:

	<b>Six Months Ended June 30, 2019</b>	
	<b>Shares</b>	<b>Weighted Average Grant-Date Fair Value</b>
<b>Number of unvested shares:</b>		
Outstanding - January 1, 2019	1,530,214	\$ 45.06
Granted	763,062	47.03
Vested	(380,435)	42.73
Forfeited	(153,710)	40.84
Outstanding as of June 30, 2019	<u>1,759,131</u>	<u>\$ 46.79</u>

Unvested Restricted Shares outstanding as of June 30, 2019 included approximately 678,000 units with performance-based vesting provisions. Performance-based units are issuable in common stock and vest upon the achievement of pre-defined performance targets. Performance-based units have performance targets based on our average return on invested capital and our total shareholder return ("TSR") over a three-year period. Most unvested units were granted in three annual grants since January 1, 2017 and have a vesting percentage between 0% and 200% depending on the achievement of the specific performance targets. Except for shares granted under the 55/10 Provision, compensation expense is recognized ratably over a cliff-vesting period of 36 months, based on the fair value of our common stock on the date of grant, as adjusted for actual forfeitures. During the performance period, earned and unearned compensation expense is adjusted based on changes in the expected achievement of the performance targets for all performance-based units granted except for the TSR-based units. Vesting provisions range from 0 to approximately 1,356,000 shares based on performance targets. As of June 30, 2019, we estimate vesting of approximately 678,000 shares based on expected achievement of performance targets.

## 6. Derivative Instruments and Hedges

Our risk management and foreign currency derivatives and hedging policy specifies the conditions under which we may enter into derivative contracts. See Notes 1 and 7 to our consolidated financial statements included in our 2018 Annual Report and Note 8 of this Quarterly Report for additional information on our derivatives. We enter into foreign exchange forward contracts to hedge our cash flow risks associated with transactions denominated in currencies other than the local currency of the operation engaging in the transaction.

Foreign exchange contracts with third parties had a notional value of \$332.8 million and \$280.9 million at June 30, 2019 and December 31, 2018, respectively. At June 30, 2019, the length of foreign exchange contracts currently in place ranged from 15 days to 28 months.

We are exposed to risk from credit-related losses resulting from nonperformance by counterparties to our financial instruments. We perform credit evaluations of our counterparties under foreign exchange contracts agreements and expect all counterparties to meet their obligations. We have not experienced credit losses from our counterparties.

The fair values of foreign exchange contracts are summarized below:

(Amounts in thousands)	June 30, 2019	December 31, 2018
Current derivative assets	\$ 1,090	\$ 535
Noncurrent derivative assets	1	5
Current derivative liabilities	1,471	3,285
Noncurrent derivative liabilities	30	2

Current and noncurrent derivative assets are reported in our condensed consolidated balance sheets in prepaid expenses and other and other assets, net, respectively. Current and noncurrent derivative liabilities are reported in our condensed consolidated balance sheets in accrued liabilities and retirement obligations and other liabilities, respectively.

The impact of net changes in the fair values of foreign exchange contracts are summarized below:

(Amounts in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Losses recognized in income	\$ (1,413)	\$ (123)	\$ (2,694)	\$ (1,227)

Gains and losses recognized in our condensed consolidated statements of income for foreign exchange contracts are classified as Other income (expense), net.

In March 2015, we designated €255.7 million of our €500.0 million Euro senior notes discussed in Note 7 as a net investment hedge of our investments in certain of our international subsidiaries that use the Euro as their functional currency. We use the spot method to measure the effectiveness of our net investment hedge. Under this method, for each reporting period, the change in the carrying value of the Euro senior notes due to remeasurement of the effective portion is reported in accumulated other comprehensive loss on our condensed consolidated balance sheet and the remaining change in the carrying value of the ineffective portion, if any, is recognized in Other income (expense), net in our condensed consolidated statement of income. We evaluate the effectiveness of our net investment hedge on a prospective basis at the beginning of each quarter. We did not record any ineffectiveness for the six months ended June 30, 2019 and 2018.

## 7. Debt

Debt, including finance lease obligations, consisted of:

(Amounts in thousands, except percentages)	June 30, 2019	December 31, 2018
1.25% EUR Senior Notes due March 17, 2022, net of unamortized discount and debt issuance costs of \$3,291 and \$3,914	\$ 565,109	\$ 569,536
3.50% USD Senior Notes due September 15, 2022, net of unamortized discount and debt issuance costs of \$2,259 and \$2,589	497,741	497,411
4.00% USD Senior Notes due November 15, 2023, net of unamortized discount and debt issuance costs of \$1,987 and \$2,192	298,013	297,808
Term Loan Facility, interest rate of 3.83% at June 30, 2019 and 4.30% at December 31, 2018, net of debt issuance costs of \$134 and \$249	74,866	104,751
Finance lease obligations and other borrowings	22,241	13,541
Debt and finance lease obligations	1,457,970	1,483,047
Less amounts due within one year	71,495	68,218
Total debt due after one year	\$ 1,386,475	\$ 1,414,829

### Senior Credit Facility

As discussed in Note 11 to our consolidated financial statements included in our 2018 Annual Report, our credit agreement provides for an \$195.0 million term loan (“Term Loan Facility”) and a \$800.0 million revolving credit facility (“Revolving Credit Facility”) and, together with the Term Loan Facility, the “Senior Credit Facility”) with a maturity date of October 14, 2020. As of June 30, 2019 and December 31, 2018, we had no revolving loans outstanding under the Revolving Credit Facility. We had outstanding letters of credit of \$82.4 million and \$92.9 million at June 30, 2019 and December 31, 2018, respectively, which together with financial covenant limitations based on the terms of our Senior Credit Facility, contributed to the reduction of our borrowing capacity to \$692.0 million and \$513.7 million, respectively. Our compliance with applicable financial covenants under the Senior Credit Facility is tested quarterly, and we complied with all applicable covenants as of June 30, 2019. We may prepay loans under our Senior Credit Facility in whole or in part, without premium or penalty, at any time. A commitment fee, which is payable quarterly on the daily unused portions of the Senior Credit Facility, was 0.20% (per annum) during the period ended June 30, 2019. During the six months ended June 30, 2019, we made scheduled repayments of \$30.0 million under our Term Loan Facility.

On July 16, 2019, we entered into a new credit agreement (“New Credit Agreement”) with Bank of America, N.A., as administrative agent, and the other lenders party thereto (“Lenders”). The New Credit Agreement provides for a \$800.0 million unsecured revolving credit facility with a maturity date of July 16, 2024 (“New Senior Credit Facility”). The New Senior Credit Facility includes a \$750.0 million sublimit for the issuance of letters of credit and a \$30.0 million sublimit for swing line loans. We have the right to increase the amount of the New Senior Credit Facility by an aggregate amount not to exceed \$400.0 million, subject to certain conditions, including each Lender’s approval providing any increase. On July 16, 2019, approximately \$75.0 million was

borrowed under the New Senior Credit Facility to repay all outstanding indebtedness under our Senior Credit Facility. In connection with this repayment, our outstanding letters of credit under the Senior Credit Facility were transferred to the New Senior Credit Facility, and we terminated the Senior Credit Facility.

The interest rates per annum applicable to the New Senior Credit Facility (other than with respect to swing line loans) will be LIBOR plus between 1.000% to 1.750%, depending on our debt rating by either Moody's Investors Service, Inc. or Standard & Poor's Ratings Services, or, at our option, the Base Rate (as defined in the New Senior Credit Agreement) plus between 0.000% to 0.750% depending on our debt rating by either Moody's Investors Service, Inc. or Standard & Poor's Ratings Services. The initial interest rate on the New Senior Credit Facility was LIBOR plus 1.375% in the case of LIBOR loans and the Base Rate plus 0.375% in the case of Base Rate loans. In addition, a commitment fee will be payable quarterly in arrears on the daily unused portions of the New Senior Credit Facility. The commitment fee will be between 0.090% and 0.300% of unused amounts under the New Senior Credit Facility depending on our debt rating by either Moody's Investors Service, Inc. or Standard & Poor's Ratings Services.

## **8.Fair Value**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models may be applied. Assets and liabilities recorded at fair value in our condensed consolidated balance sheets are categorized by hierarchical levels based upon the level of judgment associated with the inputs used to measure their fair values. Recurring fair value measurements are limited to investments in derivative instruments. The fair value measurements of our derivative instruments are determined using models that maximize the use of the observable market inputs including interest rate curves and both forward and spot prices for currencies, and are classified as Level II under the fair value hierarchy. The fair values of our derivatives are included in Note 6.

Our financial instruments are presented at fair value in our condensed consolidated balance sheets, with the exception of our long-term debt. The estimated fair value of our long-term debt, excluding the Senior Notes, approximates the carrying value and is classified as Level II under the fair value hierarchy. The carrying value of our debt is included in Note 7. The estimated fair value of our Senior Notes at June 30, 2019 was \$1,383.2 million compared to the carrying value of \$1,360.9 million. The estimated fair value of the Senior Notes is based on Level I quoted market rates. The carrying amounts of our other financial instruments (e.g., cash and cash equivalents, accounts receivable, net, accounts payable and short-term debt) approximated fair value due to their short-term nature at June 30, 2019 and December 31, 2018.

## 9. Inventories

Inventories, net consisted of the following:

(Amounts in thousands)	June 30, 2019	December 31, 2018
Raw materials	\$ 334,011	\$ 310,204
Work in process	240,696	191,660
Finished goods	182,394	205,814
Less: Excess and obsolete reserve	(76,203)	(73,807)
Inventories, net	<u>\$ 680,898</u>	<u>\$ 633,871</u>

## 10. Earnings Per Share

The following is a reconciliation of net earnings of Flowserve Corporation and weighted average shares for calculating net earnings per common share. Earnings per weighted average common share outstanding was calculated as follows:

(Amounts in thousands, except per share data)	Three Months Ended June 30,	
	2019	2018
Net earnings of Flowserve Corporation	\$ 58,172	\$ 13,220
Dividends on restricted shares not expected to vest	—	—
Earnings attributable to common and participating shareholders	<u>\$ 58,172</u>	<u>\$ 13,220</u>
Weighted average shares:		
Common stock	131,126	130,816
Participating securities	21	28
Denominator for basic earnings per common share	<u>131,147</u>	<u>130,844</u>
Effect of potentially dilutive securities	607	382
Denominator for diluted earnings per common share	<u>131,754</u>	<u>131,226</u>
Earnings per common share:		
Basic	\$ 0.44	\$ 0.10
Diluted	0.44	0.10

(Amounts in thousands, except per share data)	Six Months Ended June 30,	
	2019	2018
Net earnings of Flowserve Corporation	\$ 115,433	\$ 28,363
Dividends on restricted shares not expected to vest	—	—
Earnings attributable to common and participating shareholders	<u>\$ 115,433</u>	<u>\$ 28,363</u>
Weighted average shares:		
Common stock	131,044	130,765
Participating securities	21	38
Denominator for basic earnings per common share	<u>131,065</u>	<u>130,803</u>
Effect of potentially dilutive securities	578	358
Denominator for diluted earnings per common share	<u>131,643</u>	<u>131,161</u>
Earnings per common share:		
Basic	\$ 0.88	\$ 0.22
Diluted	0.88	0.22

Diluted earnings per share above is based upon the weighted average number of shares as determined for basic earnings per share plus shares potentially issuable in conjunction with stock options and Restricted Shares.

## 11. Legal Matters and Contingencies

### *Asbestos-Related Claims*

We are a defendant in a substantial number of lawsuits that seek to recover damages for personal injury allegedly caused by exposure to asbestos-containing products manufactured and/or distributed by our heritage companies in the past. While the overall number of asbestos-related claims has generally declined in recent years, there can be no assurance that this trend will continue, or that the average cost per claim will not further increase. Asbestos-containing materials incorporated into any such products were encapsulated and used as internal components of process equipment, and we do not believe that any significant emission of asbestos fibers occurred during the use of this equipment.

Our practice is to vigorously contest and resolve these claims, and we have been successful in resolving a majority of claims with little or no payment. Historically, a high percentage of resolved claims have been covered by applicable insurance or indemnities from other companies, and we believe that a substantial majority of existing claims should continue to be covered by insurance or indemnities, in whole or in part. Accordingly, we have recorded a liability for our estimate of the most likely settlement of asserted claims and a related receivable from insurers or other companies for our estimated recovery, to the extent we believe that the amounts of recovery are probable. While unfavorable rulings, judgments or settlement terms regarding these claims could have a material adverse impact on our business, financial condition, results of operations and cash flows, we currently believe the likelihood is remote.

Additionally, we have claims pending against certain insurers that, if resolved more favorably than reflected in the recorded receivables, would result in discrete gains in the applicable quarter. We are currently unable to estimate the impact, if any, of unasserted asbestos-related claims, although we expect that future claims would also be subject to then existing indemnities and insurance coverage.

### *Other*

We are currently involved as a potentially responsible party at five former public waste disposal sites in various stages of evaluation or remediation. The projected cost of remediation at these sites, as well as our alleged "fair share" allocation, will remain uncertain until all studies have been completed and the parties have either negotiated an amicable resolution or the matter has been judicially resolved. At each site, there are many other parties who have similarly been identified. Many of the other parties identified are financially strong and solvent companies that appear able to pay their share of the remediation costs. Based on our information about the waste disposal practices at these sites and the environmental regulatory process in general, we believe that it is likely that ultimate remediation liability costs for each site will be apportioned among all liable parties, including site owners and waste transporters, according to the volumes and/or toxicity of the wastes shown to have been disposed of at the sites. We believe that our financial exposure for existing disposal sites will not be materially in excess of accrued reserves.

As previously disclosed in our 2018 Annual Report, in 2016 we terminated an employee of an overseas subsidiary after uncovering actions that violated our Code of Business Conduct and may have violated the Foreign Corrupt Practices Act. We completed our internal investigation into the matter, self-reported the potential violation to the United States Department of Justice (the "DOJ") and the SEC, and continue to cooperate with the DOJ and SEC. We previously received a subpoena from the SEC requesting additional information and documentation related to the matter and have completed our response to the subpoena. We currently believe that this matter will not have a material adverse financial impact on the Company, but there can be no assurance that the Company will not be subjected to monetary penalties and additional costs.

We are also a defendant in a number of other lawsuits, including product liability claims, that are insured, subject to the applicable deductibles, arising in the ordinary course of business, and we are also involved in other uninsured routine litigation incidental to our business. We currently believe none of such litigation, either individually or in the aggregate, is material to our business, operations or overall financial condition. However, litigation is inherently unpredictable, and resolutions or dispositions of claims or lawsuits by settlement or otherwise could have an adverse impact on our financial position, results of operations or cash flows for the reporting period in which any such resolution or disposition occurs.

Although none of the aforementioned potential liabilities can be quantified with absolute certainty except as otherwise indicated above, we have established reserves covering exposures relating to contingencies, to the extent believed to be reasonably estimable and probable based on past experience and available facts. While additional exposures beyond these reserves could exist, they currently cannot be estimated. We will continue to evaluate and update the reserves as necessary and appropriate.

## 12. Retirement and Postretirement Benefits

Components of the net periodic cost for retirement and postretirement benefits for the three months ended June 30, 2019 and 2018 were as follows:

(Amounts in millions)	U.S. Defined Benefit Plans		Non-U.S. Defined Benefit Plans		Postretirement Medical Benefits	
	2019	2018	2019	2018	2019	2018
Service cost	\$ 5.9	\$ 5.1	\$ 1.5	\$ 1.8	\$ —	\$ —
Interest cost	4.2	3.9	2.2	2.1	0.2	0.2
Expected return on plan assets	(6.3)	(6.4)	(1.9)	(2.1)	—	—
Amortization of prior service cost	0.1	0.1	0.1	—	—	0.1
Amortization of unrecognized net loss (gain)	0.9	1.4	0.7	0.9	—	(0.3)
Net periodic cost recognized	\$ 4.8	\$ 4.1	\$ 2.6	\$ 2.7	\$ 0.2	\$ —

Components of the net periodic cost for retirement and postretirement benefits for the six months ended June 30, 2019 and 2018 were as follows:

(Amounts in millions)	U.S. Defined Benefit Plans		Non-U.S. Defined Benefit Plans		Postretirement Medical Benefits	
	2019	2018	2019	2018	2019	2018
Service cost	\$ 11.5	\$ 11.1	\$ 2.9	\$ 3.6	\$ —	\$ —
Interest cost	8.7	7.9	4.5	4.4	0.4	0.4
Expected return on plan assets	(12.8)	(12.9)	(3.8)	(4.3)	—	—
Amortization of prior service cost	0.1	0.1	0.1	—	—	0.1
Amortization of unrecognized net loss (gain)	1.8	2.8	1.5	1.8	(0.1)	(0.4)
Net periodic cost recognized	\$ 9.3	\$ 9.0	\$ 5.2	\$ 5.5	\$ 0.3	\$ 0.1

The components of net periodic cost for retirement and postretirement benefits other than service costs are included in Other income (expense), net in our condensed consolidated statement of income.

## 13. Shareholders' Equity

*Dividends* – Generally, our dividend date-of-record is in the last month of the quarter, and the dividend is paid the following month. Any subsequent dividends will be reviewed by our Board of Directors and declared in its discretion dependent on its assessment of our financial situation and business outlook at the applicable time.

Dividends declared per share were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Dividends declared per share	\$ 0.19	\$ 0.19	\$ 0.38	\$ 0.38

*Share Repurchase Program* – In 2014, our Board of Directors approved a \$500.0 million share repurchase authorization. Our share repurchase program does not have an expiration date, and we reserve the right to limit or terminate the repurchase program at any time without notice. We had no repurchases of shares of our outstanding common stock for both of the six months ended June 30, 2019 and 2018. As of June 30, 2019, we had \$160.7 million of remaining capacity under our current share repurchase program.

#### **14. Income Taxes**

On December 22, 2017, the U.S. enacted the Tax Cuts and Jobs Act of 2017 (the “Tax Reform Act”), which significantly changed U.S. tax law. The Tax Reform Act, among other things, lowered the Company’s U.S. statutory federal income tax rate from 35% to 21% effective January 1, 2018, while implementing a modified territorial tax system. The Tax Reform Act also provides for two new anti-base erosion provisions, the global intangible low-taxed income (“GILTI”) provision and the base-erosion and anti-abuse tax (“BEAT”) provision which effectively creates a new minimum tax on certain future foreign earnings.

For the three months ended June 30, 2019, we earned \$82.9 million before taxes and provided for income taxes of \$22.4 million resulting in an effective tax rate of 27.0%. For the six months ended June 30, 2019, we earned \$159.0 million before taxes and provided for income taxes of \$39.0 million resulting in an effective tax rate of 24.5%. The effective tax rate varied from the U.S. federal statutory rate for the three and six months ended June 30, 2019 primarily due to the BEAT provision and state tax, partially offset by the net impact of foreign operations.

For the three months ended June 30, 2018, we earned \$28.3 million before taxes and provided for income taxes of \$13.5 million resulting in an effective tax rate of 47.8%. For the six months ended June 30, 2018, we earned \$53.4 million before taxes and provided for income taxes of \$22.1 million resulting in an effective tax rate of 41.4%. The effective tax rate varied from the U.S. federal statutory rate for the three and six months ended June 30, 2018 primarily due to the net impact of foreign operations, including losses in certain foreign jurisdictions for which no tax benefit was provided.

As of June 30, 2019, the amount of unrecognized tax benefits decreased by \$1.9 million from December 31, 2018. With limited exception, we are no longer subject to U.S. federal income tax audits for years through 2016, state and local income tax audits for years through 2012 or non-U.S. income tax audits for years through 2011. We are currently under examination for various years in Austria, Canada, France, Germany, India, Indonesia, Italy, Mexico, Netherlands, Philippines, Saudi Arabia, Singapore, Thailand, the U.S. and Venezuela.

It is reasonably possible that within the next 12 months the effective tax rate will be impacted by the resolution of some or all of the matters audited by various taxing authorities. It is also reasonably possible that we will have the statute of limitations close in various taxing jurisdictions within the next 12 months. As such, we estimate we could record a reduction in our tax expense of approximately \$18 million within the next 12 months.

#### **15. Segment Information**

In connection with the Flowserve 2.0 Transformation program discussed in Note 17, we have determined that there are meaningful operational synergies and benefits to combining our previously reported EPD and IPD segments into one reportable segment, FPD. During the first quarter of 2019 we implemented a reorganization of our operating segments and as a result we report our financial information reflecting two operating segments, FPD and FCD. The reorganization of the segments reflects how our chief operating decision maker (Chief Executive Officer) regularly reviews financial information to allocate resources and assess performance.

The following is a summary of the financial information of the reportable segments reconciled to the amounts reported in the condensed consolidated financial statements:

### Three Months Ended June 30, 2019

(Amounts in thousands)	FPD	FCD	Subtotal– Reportable Segments	Eliminations and All Other	Consolidated Total
Sales to external customers	\$ 673,966	\$ 316,118	\$ 990,084	\$ —	\$ 990,084
Intersegment sales	651	822	1,473	(1,473)	—
Segment operating income	76,161	46,161	122,322	(24,304)	98,018

### Three Months Ended June 30, 2018

	FPD	FCD	Subtotal– Reportable Segments	Eliminations and All Other	Consolidated Total
Sales to external customers	\$ 667,469	\$ 305,660	\$ 973,129	\$ —	\$ 973,129
Intersegment sales	962	811	1,773	(1,773)	—
Segment operating income	31,575	46,422	77,997	(31,286)	46,711

### Six Months Ended June 30, 2019

(Amounts in thousands)	FPD	FCD	Subtotal– Reportable Segments	Eliminations and All Other	Consolidated Total
Sales to external customers	\$ 1,282,725	\$ 597,410	\$ 1,880,135	\$ —	\$ 1,880,135
Intersegment sales	1,301	1,650	2,951	(2,951)	—
Segment operating income	156,624	90,583	247,207	(57,958)	189,249

### Six Months Ended June 30, 2018

	FPD	FCD	Subtotal– Reportable Segments	Eliminations and All Other	Consolidated Total
Sales to external customers	\$ 1,311,509	\$ 581,574	\$ 1,893,083	\$ —	\$ 1,893,083
Intersegment sales	1,371	2,129	3,500	(3,500)	—
Segment operating income	66,280	80,311	146,591	(54,454)	92,137

## 16. Accumulated Other Comprehensive Income (Loss)

The following table presents the changes in accumulated other comprehensive loss ("AOCL"), net of tax for the three months ended June 30, 2019 and 2018:

(Amounts in thousands)	2019				2018			
	Foreign currency translation items(1)	Pension and other post-retirement effects	Cash flow hedging activity	Total(1)	Foreign currency translation items(1)	Pension and other post-retirement effects	Cash flow hedging activity	Total(1)
Balance - April 1	\$ (440,980)	\$ (119,430)	\$ (796)	\$ (561,206)	\$ (365,330)	\$ (116,065)	\$ (1,062)	\$ (482,457)
Other comprehensive income (loss) before reclassifications	(2,848)	663	43	(2,142)	(60,997)	3,788	97	(57,112)
Amounts reclassified from AOCL	—	1,523	—	1,523	—	2,029	—	2,029
Net current-period other comprehensive income (loss)	(2,848)	2,186	43	(619)	(60,997)	5,817	97	(55,083)
Balance - June 30	<u>\$ (443,828)</u>	<u>\$ (117,244)</u>	<u>\$ (753)</u>	<u>\$ (561,825)</u>	<u>\$ (426,327)</u>	<u>\$ (110,248)</u>	<u>\$ (965)</u>	<u>\$ (537,540)</u>

(1) Includes foreign currency translation adjustments attributable to noncontrolling interests of \$5.2 million and \$4.7 million at April 1, 2019 and 2018, respectively, and \$5.2 million and \$4.7 million at June 30, 2019 and 2018, respectively. Includes net investment hedge losses of \$3.0 million and gains of \$12.5 million, net of deferred taxes, at June 30, 2019 and 2018, respectively. Amounts in parentheses indicate debits.

The following table presents the reclassifications out of AOCL:

(Amounts in thousands)	Affected line item in the statement of income	Three Months Ended June 30,	
		2019(1)	2018(1)
Pension and other postretirement effects			
Amortization of actuarial losses(2)	Other income (expense), net	\$ (1,607)	\$ (1,975)
Prior service costs(2)	Other income (expense), net	(138)	(78)
	Tax benefit	222	24
	Net of tax	<u>\$ (1,523)</u>	<u>\$ (2,029)</u>

(1) Amounts in parentheses indicate decreases to income. None of the reclass amounts have a noncontrolling interest component.

(2) These accumulated other comprehensive loss components are included in the computation of net periodic pension cost. See Note 12 for additional details.

The following table presents the changes in AOCL, net of tax for the six months ended June 30, 2019 and 2018:

(Amounts in thousands)	2019				2018			
	Foreign currency translation items(1)	Pension and other post-retirement effects	Cash flow hedging activity	Total(1)	Foreign currency translation items(1)	Pension and other post-retirement effects	Cash flow hedging activity	Total(1)
Balance - January 1	\$ (447,925)	\$ (120,647)	\$ (858)	\$ (569,430)	\$ (384,779)	\$ (115,755)	\$ (1,090)	\$ (501,624)
Other comprehensive (loss) income before reclassifications	4,097	393	105	4,595	(41,548)	1,765	125	(39,658)

Net current-period other comprehensive (loss) income	4,097	3,403	105	7,605	(41,548)	5,507	125	(35,916)
Balance - June 30	\$ (443,828)	\$ (117,244)	\$ (753)	\$ (561,825)	\$ (426,327)	\$ (110,248)	\$ (965)	\$ (537,540)

(1) Includes foreign currency translation adjustments attributable to noncontrolling interests of \$4.5 million and \$3.8 million at January 1, 2019 and 2018, respectively, and \$5.2 million and \$4.7 million at June 30, 2019 and 2018, respectively. Includes net investment hedge losses of \$15.2 million and \$21.3 million, net of deferred taxes, for the three months ended June 30, 2019 and 2018, respectively. Amounts in parentheses indicate debits.

The following table presents the reclassifications out of AOCL:

(Amounts in thousands)	Affected line item in the statement of income	Six Months Ended June 30,	
		2019(1)	2018(1)
Pension and other postretirement effects			
Amortization of actuarial losses(2)	Other income (expense), net	\$ (3,163)	\$ (4,170)
Prior service costs(2)	Other income (expense), net	(276)	(159)
	Tax benefit	429	587
	Net of tax	\$ (3,010)	\$ (3,742)

(1) Amounts in parentheses indicate decreases to income. None of the reclass amounts have a noncontrolling interest component.

(2) These accumulated other comprehensive loss components are included in the computation of net periodic pension cost. See Note 12 for additional details.

## 17. Realignment and Transformation Programs

In the second quarter of 2018, we launched and committed resources to our Flowserve 2.0 Transformation ("Flowserve 2.0 Transformation"), a program designed to transform our business model to drive operational excellence, reduce complexity, accelerate growth, improve organizational health and better leverage our existing global platform. We anticipate that the Flowserve 2.0 Transformation will result in restructuring charges, non-restructuring charges and other related transformation expenses (primarily professional services, project management and related travel expenses). For the three months ended June 30, 2019 and 2018, we incurred Flowserve 2.0 Transformation related expenses of \$7.6 million and \$2.9 million, respectively. For the six months ended June 30, 2019 and 2018 we incurred Flowserve 2.0 Transformation related expenses of \$16.0 million and \$3.4 million, respectively. The Flowserve 2.0 Transformation expenses incurred primarily consist of professional services and project management costs recorded in SG&A.

In 2015, we initiated realignment programs to better align costs and improve long-term efficiency, including manufacturing optimization through the consolidation of facilities, reduction in our workforce and divestiture of certain non-strategic assets (the "Realignment Programs"). The Realignment Programs consist of both restructuring and non-restructuring charges. Restructuring charges represent costs associated with the relocation or reorganization of certain business activities and facility closures and include related severance costs. Non-restructuring charges are primarily employee severance associated with workforce reductions

to reduce redundancies. Expenses are primarily reported in COS or SG&A, as applicable, in our condensed consolidated statements of income. These Realignment Programs have been substantially completed as of December 31, 2018. We estimate that the total investment in these programs will be approximately \$350 million. As of June 30, 2019, we have incurred charges of \$342.1 million since the inception of the programs.

Generally, the aforementioned charges will be paid in cash, except for asset write-downs, which are non-cash charges. The following is a summary of total charges, net of adjustments, related to the Realignment and Flowserve 2.0 Transformation program charges:

<b>Three Months Ended June 30, 2019</b>

SG&A	59,515	17,414	76,929	17,078	94,007
Income tax expense(1)	18,700	1,800	20,500	—	20,500
Total	<u>\$ 264,558</u>	<u>\$ 60,504</u>	<u>\$ 325,062</u>	<u>\$ 17,086</u>	<u>\$ 342,148</u>

(1) Income tax expense includes exit taxes as well as non-deductible costs.

Restructuring charges represent costs associated with the relocation or reorganization of certain business activities and facility closures and include costs related to employee severance at closed facilities, contract termination costs, asset write-downs and other costs. Severance costs primarily include costs associated with involuntary termination benefits. Contract termination costs include costs related to termination of operating leases or other contract termination costs. Asset write-downs include accelerated depreciation of fixed assets, accelerated amortization of intangible assets, divestiture of certain non-strategic assets and inventory write-downs. Other costs generally include costs related to employee relocation, asset relocation, vacant facility costs (i.e., taxes and insurance) and other charges.

The following is a summary of restructuring charges, net of adjustments, for the Realignment Programs:

<b>Three Months Ended June 30, 2019</b>					
(Amounts in thousands)	Severance	Contract Termination	Asset Write- Downs/ (Gains)	Other	Total

Cash expenditures	(4,733)	(9,169)
Other non-cash adjustments, including currency	(205)	(2,378)
Balance at June 30	\$ 11,785	\$ 35,227

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and notes thereto, and the other financial data included elsewhere in this Quarterly Report. The following discussion should also be read in conjunction with our audited consolidated financial statements, and notes thereto, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" ("MD&A") included in our 2018 Annual Report.

## EXECUTIVE OVERVIEW

### *Our Company*

We believe that we are a world-leading manufacturer and aftermarket service provider of comprehensive flow control systems. We develop and manufacture precision-engineered flow control equipment integral to the movement, control and protection of the flow of materials in our customers' critical processes. Our product portfolio of pumps, valves, seals, automation and aftermarket services supports global infrastructure industries, including oil and gas, chemical, power generation and water management, as well as general industrial markets where our products and services add value. Through our manufacturing platform and global network of Quick Response Centers ("QRCs"), we offer a broad array of aftermarket equipment services, such as installation, advanced diagnostics, repair and retrofitting. We currently employ approximately 17,000 employees in more than 50 countries.

Our business model is significantly influenced by the capital spending of global infrastructure industries for the placement of new products into service and aftermarket services for existing operations. The worldwide installed base of our products is an important source of aftermarket revenue, where products are expected to ensure the maximum operating time of many key industrial processes. Over the past several years, we have significantly invested in our aftermarket strategy to provide local support to drive customer investments in our offerings and use of our services to replace or repair installed products. The aftermarket portion of our business also helps provide business stability during various economic periods. The aftermarket service and solutions business, which is primarily served by our network of 171 QRCs located around the globe, provides a variety of service offerings for our customers including spare parts, service solutions, product life cycle solutions and other value-added services. It is generally a higher margin business compared to our original equipment business and a key component of our business strategy.

Our operations are conducted through two business segments that are referenced throughout this MD&A:

- FPD for custom, highly-engineered pumps, pre-configured industrial pumps, pump systems, mechanical seals, auxiliary systems and replacement parts and related services; and
- FCD for engineered and industrial valves, control valves, actuators and controls and related services.

In the second quarter of 2018, we launched and committed resources to our Flowserve 2.0 Transformation ("Flowserve 2.0 Transformation"), a program designed to transform our business model to drive operational excellence, reduce complexity, accelerate growth, improve organizational health and better leverage our existing global platform, which is further discussed in Note 17 to our condensed consolidated financial statements included in this Quarterly Report.

In connection with the Flowserve 2.0 Transformation, we have determined that there are meaningful operational synergies and benefits to combine our previously reported EPD and IPD segments into one reportable segment, FPD. The reorganization of the segments reflects how our chief operating decision maker (Chief Executive Officer) regularly reviews financial information to allocate resources and assess performance. The reorganization of the segments was implemented during the first quarter of 2019 and prior periods presentations were retrospectively adjusted to conform to the new reportable segment composition. This change had no impact on our historical consolidated financial position or results of operations. Please refer to Note 15 to our condensed consolidated financial statements included in this Quarterly Report for further discussion regarding the segment combination.

Our business segments share a focus on industrial flow control technology and have a high number of common customers. These segments also have complementary product offerings and technologies that are often combined in applications that provide us a net competitive advantage. Our segments also benefit from our global footprint and our economies of scale in reducing administrative and overhead costs to serve customers more cost effectively. For example, our segments share leadership for operational support functions, such as research and development, marketing and supply chain.

The reputation of our product portfolio is built on more than 50 well-respected brand names such as Worthington, IDP, Valtek, Limitorque, Durco, Edward, Anchor/Darling, SIHI, Halberg and Durametall, which we believe to be one of the most comprehensive in the industry. Our products and services are sold either directly or through designated channels to more than 10,000 companies, including some of the world's leading engineering, procurement and construction ("EPC") firms, original equipment manufacturers, distributors and end users.

We continue to leverage our QRC network to be positioned as near to customers as possible for service and support in order to capture valuable aftermarket business. Along with ensuring that we have the local capability to sell, install and service our equipment in remote regions, it is equally imperative to continuously improve our global operations. We continue to expand our global supply chain capability to meet global customer demands and ensure the quality and timely delivery of our products. Additionally, we continue to devote resources to improving the supply chain processes across our business segments to find areas of synergy and cost reduction and to improve our supply chain management capability to ensure it can meet global customer demands. We also remain focused on improving on-time delivery and quality, while managing warranty costs as a percentage of sales across our global operations, through the assistance of a focused Continuous Improvement Process ("CIP") initiative. The

goal of the CIP initiative, which includes lean manufacturing, six sigma business management strategy and value engineering, is to maximize service fulfillment to customers through on-time delivery, reduced cycle time and quality at the highest internal productivity.

Over the past several quarters we have experienced a stabilization in business conditions and are continuing to gain traction and momentum in certain of our key markets. With continued stability in oil prices, at improved levels beginning in the second half of 2017, our large-project business is showing signs of recovery and we anticipate that customers will continue to increase maintenance and short cycle investment during the second half of 2019.

## RESULTS OF OPERATIONS — Three and six months ended June 30, 2019 and 2018

Throughout this discussion of our results of operations, we discuss the impact of fluctuations in foreign currency exchange rates. We have calculated currency effects on operations by translating current year results on a monthly basis at prior year exchange rates for the same periods.

We anticipate that the Flowserve 2.0 Transformation will result in restructuring charges, non-restructuring charges and other related transformation expenses (e.g., professional services, project management and related travel and expense). For the three months ended June 30, 2019 and 2018 we incurred Flowserve 2.0 Transformation related expenses of \$7.6 million and \$2.9 million, respectively. For the six months ended June 30, 2019 and 2018 we incurred Flowserve 2.0 Transformation related expenses of \$16.0 million and \$3.4 million, respectively. The Flowserve 2.0 Transformation expenses incurred primarily consist of professional services and project management costs recorded in SG&A.

The Realignment Programs, initiated in 2015, as discussed Note 17 to our condensed consolidated financial statements included in this Quarterly Report, were substantially complete as of December 31, 2018, with an estimated total investment in these programs of approximately \$350 million.

The total charges for Realignment Programs and Flowserve 2.0 Transformation by segment are detailed below for the three and six months ended June 30, 2019 and 2018:

(Amounts in thousands)	Three Months Ended June 30, 2019				
	FPD	FCD	Subtotal– Reportable Segments	Eliminations and All Other	Consolidated Total

**Consolidated Results**
**Bookings, Sales and Backlog**

(Amounts in millions)	<b>Three Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Bookings	\$ 1,105.0	\$ 1,037.3
Sales	990.1	973.1

(Amounts in millions)	<b>Six Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Bookings	\$ 2,165.1	\$ 1,965.8
Sales	1,880.1	1,893.1

We define a booking as the receipt of a customer order that contractually engages us to perform activities on behalf of our customer with regard to manufacturing, service or support. Bookings recorded and subsequently canceled within the year-to-date period are excluded from year-to-date bookings. Bookings for the three months ended June 30, 2019 increased by \$67.7 million or 6.5%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$35 million. The increase was driven by higher bookings in the oil and gas, chemical and water management industries, partially offset by decreased bookings in the general industries. The increase was primarily driven by customer original equipment bookings. The three months ended June 30, 2018 included bookings of approximately \$11 million related to the two FPD locations and associated product lines that were divested in the third quarter of 2018.

Bookings for the six months ended June 30, 2019 increased by \$199.3 million, or 10.1%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$75.1 million. The increase was primarily driven by customer original equipment bookings. The increase was also driven by higher bookings in the oil and gas, chemical and water management industries, partially offset by decreased bookings in the general industries. The six months ended June 30, 2018 included bookings of approximately \$25 million related to the two FPD locations and associated product lines that were divested in the third quarter of 2018.

Sales for the three months ended June 30, 2019 increased by \$17.0 million, or 1.7%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$28 million. The increased sales were equally attributable to original equipment and aftermarket sales, with increased sales into Europe, North America, Latin America and Africa, partially

offset by decreased sales into the Middle East and Asia Pacific. The three months ended June 30, 2018 included sales of approximately \$14 million related to the two FPD locations and associated product lines that were divested in the third quarter of 2018. Net sales to international customers, including export sales from the U.S., were approximately 63% and 64% of total sales for the three months ended June 30, 2019 and 2018, respectively.

Sales for the six months ended June 30, 2019 decreased by \$13.0 million, or 0.7%, as compared with the same period in 2018. The decrease included negative currency effects of approximately \$62 million. The decrease was driven by original equipment sales, with decreased sales into the Middle East and Asia Pacific, partially offset by increased sales into Europe, Africa, North America and Latin America. The six months ended June 30, 2018 included sales of approximately \$25 million related to the two FPD locations and associated product lines that were divested in the third quarter of 2018. Net sales to international customers, including export sales from the U.S., were approximately 63% of total sales for both six months ended June 30, 2019 and 2018.

Backlog represents the aggregate value of booked but uncompleted customer orders and is influenced primarily by bookings, sales, cancellations, and currency effects. Backlog of \$2,155.8 million at June 30, 2019 increased by \$264.2 million, or 14.0%, as compared with December 31, 2018. Currency effects provided an increase of approximately \$3 million. Approximately 34% of the backlog at June 30, 2019 was related to aftermarket orders. Backlog includes our unsatisfied (or partially unsatisfied) performance obligations related to contracts having an original expected duration in excess of one year of approximately \$487 million, as discussed in Note 2 to our condensed consolidated financial statements included in this Quarterly Report.

### Gross Profit and Gross Profit Margin

(Amounts in millions, except percentages)	Three Months Ended June 30,	
	2019	2018
Gross profit	\$ 318.0	\$ 286.1
Gross profit margin	32.1%	29.4%

  

(Amounts in millions, except percentages)	Six Months Ended June 30,	
	2019	2018
Gross profit	\$ 612.1	\$ 557.5
Gross profit margin	32.6%	29.4%

Gross profit for the three months ended June 30, 2019 increased by \$31.9 million, or 11.1%, as compared with the same period in 2018. Gross profit margin for the three months ended June 30, 2019 of 32.1% increased from 29.4% for the same period in 2018. The increase in gross profit margin was primarily attributed to the favorable impact of revenue recognized on higher margin projects, lower realignment charges associated with our Realignment Programs, improvements in operational efficiency and a \$7.7 million charge related to the write-down of inventory in the second quarter of 2018 that did not recur, which was associated with the divestiture of two FPD locations in the third quarter of 2018. Aftermarket sales represented approximately 50% of total sales for each of the three months ended June 30, 2019 and 2018.

Gross profit for the six months ended June 30, 2019 increased by \$54.6 million, or 9.8%, as compared with the same period in 2018. Gross profit margin for the six months ended June 30, 2019 of 32.6% increased from 29.4% for the same period in 2018. The increase in gross profit margin was primarily attributed to the favorable impact of revenue recognized on higher margin projects, sales mix shift to higher margin aftermarket sales, lower realignment charges associated with our Realignment Programs, improvements in operational efficiency and a \$7.7 million charge related to the write-down of inventory in the second quarter of 2018 that did not recur, which was associated with the divestiture of two FPD locations in the third quarter of 2018. Aftermarket sales represented approximately 52% of total sales, as compared with approximately 50% of total sales for the same period in 2018.

## Selling, General and Administrative Expense

	Three Months Ended June 30,	
	2019	2018
(Amounts in millions, except percentages)		
SG&A	\$ 223.7	\$ 240.8
SG&A as a percentage of sales	22.6%	24.7%

  

	Six Months Ended June 30,	
	2019	2018
(Amounts in millions, except percentages)		
SG&A	\$ 428.8	\$ 470.0
SG&A as a percentage of sales	22.8%	24.8%

SG&A for the three months ended June 30, 2019 decreased by \$17.1 million, or 7.1%, as compared with the same period in 2018. Currency effects yielded a decrease of approximately \$5 million. SG&A as a percentage of sales for the three months ended June 30, 2019 decreased 210 basis points as compared with the same period in 2018 due to favorable impacts resulting from the 2018 divestiture of two FPD locations and a \$9.7 million impairment charge related to long-lived assets in the second quarter of 2018 that did not recur.

SG&A for the six months ended June 30, 2019 decreased by \$41.2 million, or 8.8%, as compared with the same period in 2018. Currency effects yielded a decrease of approximately \$12 million. SG&A as a percentage of sales for the six months ended June 30, 2019 decreased 200 basis points as compared with the same period in 2018 primarily due to gains from the sales of non-strategic manufacturing facilities in the first quarter of 2019, favorable impacts resulting from the 2018 divestiture of two FPD locations and a \$9.7 million impairment charge related to long-lived assets in the second quarter of 2018 that did not recur.

## Net Earnings from Affiliates

	Three Months Ended June 30,	
	2019	2018
(Amounts in millions)		
Net earnings from affiliates	\$ 3.7	\$ 1.4

  

	Six Months Ended June 30,	
	2019	2018
(Amounts in millions)		
Net earnings from affiliates	\$ 6.0	\$ 4.6

Net earnings from affiliates for the three months ended June 30, 2019 increased \$2.3 million, or 164.3%, as compared with the same period in 2018. The increase was primarily a result of increased earnings of our FPD joint venture in South Korea.

Net earnings from affiliates for the six months ended June 30, 2019 increased \$1.4 million, or 30.4%, as compared with the same period in 2018.

## Operating Income and Operating Margin

	Three Months Ended June 30,	
	2019	2018
(Amounts in millions, except percentages)		
Operating income	\$ 98.0	\$ 46.7
Operating income as a percentage of sales	9.9%	4.8%

  

	Six Months Ended June 30,	
	2019	2018
(Amounts in millions, except percentages)		
Operating income	\$ 189.2	\$ 92.1
Operating income as a percentage of sales	10.1%	4.9%

Operating income for the three months ended June 30, 2019 increased by \$51.3 million, or 109.9%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$3 million. The increase was primarily a result of the \$17.1 million decrease in SG&A and the \$31.9 million increase in gross profit.

Operating income for the six months ended June 30, 2019 increased by \$97.1 million, or 105.4%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$9 million. The increase was primarily a result of the \$41.2 million decrease in SG&A and the \$54.6 million increase in gross profit.

### Interest Expense and Interest Income

(Amounts in millions)	<b>Three Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Interest expense	\$ (14.0)	\$ (14.9)
Interest income	2.2	1.3

  

(Amounts in millions)	<b>Six Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Interest expense	\$ (28.0)	\$ (29.8)
Interest income	4.2	3.0

Interest expense and interest income for the three months ended June 30, 2019 decreased \$0.9 million and increased \$0.9 million, respectively, as compared with the same period in 2018. The decrease in interest expense was primarily attributable to lower borrowings in 2019 and currency impacts on interest expense associated with our outstanding Euro-denominated senior notes, as compared to the same period in 2018. The increase in interest income was primarily attributable to higher average cash balances compared with same period in 2018.

Interest expense and interest income for the six months ended June 30, 2019 decreased \$1.8 million and increased \$1.2 million, respectively, as compared with the same period in 2018. The decrease in interest expense was primarily attributable to lower borrowings in 2019 and currency impacts on interest expense associated with our outstanding Euro-denominated senior notes, as compared to the same period in 2018. The increase in interest income was primarily attributable to higher average cash balances compared with same period in 2018.

### Other Income (Expense), Net

(Amounts in millions)	<b>Three Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Other income (expense), net	\$ (3.3)	\$ (4.8)

  

(Amounts in millions)	<b>Six Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Other income (expense), net	\$ (6.5)	\$ (11.9)

Other income (expense), net for the three months ended June 30, 2019 decreased \$1.5 million, as compared with the same period in 2018, due primarily to a \$2.3 million decrease in losses from transactions in currencies other than our sites' functional currencies, partially offset by a \$1.3 million increase in losses arising from transactions on foreign exchange contracts. The net change was primarily due to the foreign currency exchange rate movements in the Mexican peso, Brazilian real, Indian rupee and Japanese yen in relation to the U.S. dollar during the three months ended June 30, 2019, as compared with the same period in 2018.

Other income (expense), net for the six months ended June 30, 2019 decreased \$5.4 million, as compared with the same period in 2018, due primarily to a \$7.7 million decrease in losses from transactions in currencies other than our sites' functional currencies, partially offset by a \$1.5 million increase in losses arising from transactions on foreign exchange contracts. The net change was

primarily due to the foreign currency exchange rate movements in the Indian rupee, Brazilian real, Mexican peso and Singapore dollar in relation to the U.S. dollar during the six months ended June 30, 2019, as compared with the same period in 2018.

### Tax Expense and Tax Rate

(Amounts in millions, except percentages)	Three Months Ended June 30,	
	2019	2018
Provision for income taxes	\$ 22.4	\$ 13.5
Effective tax rate	27.0%	47.8%

  

(Amounts in millions, except percentages)	Six Months Ended June 30,	
	2019	2018
Provision for income taxes	\$ 39.0	\$ 22.1
Effective tax rate	24.5%	41.4%

The effective tax rate of 27.0% for the three months ended June 30, 2019 decreased from 47.8% for the same period in 2018. The effective tax rate varied from the U.S. federal statutory rate for the three months ended June 30, 2019 primarily due to the BEAT provision in the Tax Reform Act and state tax, partially offset by the net impact of taxes on foreign operations. The effective tax rate varied from the U.S. federal statutory rate for the three months ended June 30, 2018 primarily due to the net impact of taxes on foreign operations, including losses in certain foreign jurisdictions for which no tax benefit was provided. Refer to Note 14 to our condensed consolidated financial statements included in this Quarterly Report for further discussion.

The effective tax rate of 24.5% for the six months ended June 30, 2019 decreased from 41.4% for the same period in 2018. The effective tax rate varied from the U.S. federal statutory rate for the three months ended June 30, 2019 primarily due to the BEAT provision in the Tax Reform Act and state tax, partially offset by the net impact of taxes on foreign operations. The effective tax rate varied from the U.S. federal statutory rate for the six months ended June 30, 2018 primarily due to the net impact of taxes on foreign operations, including losses in certain foreign jurisdictions for which no tax benefit was provided. Refer to Note 14 to our condensed consolidated financial statements included in this Quarterly Report for further discussion.

### Other Comprehensive Income (Loss)

(Amounts in millions)	Three Months Ended June 30,	
	2019	2018
Other comprehensive income (loss)	\$ (0.6)	\$ (55.1)

  

(Amounts in millions)	Six Months Ended June 30,	
	2019	2018
Other comprehensive income (loss)	\$ 7.6	\$ (35.9)

Other comprehensive income for the three months ended June 30, 2019 increased \$54.5 million from a loss of \$55.1 million in the same period in 2018. The increased income was primarily due to foreign currency translation adjustments resulting primarily from exchange rate movements of the Euro, British pound, Chinese yuan and Mexican peso versus the U.S. dollar during the three months ended June 30, 2019, as compared with the same period in 2018.

Other comprehensive income for the six months ended June 30, 2019 increased \$43.5 million from a loss of \$35.9 million in the same period in 2018. The increased income was primarily due to foreign currency translation adjustments resulting primarily from exchange rate movements of the Euro, Indian rupee, Canadian dollar and Mexican peso versus the U.S. dollar during the six months ended June 30, 2019, as compared with the same period in 2018.

### Business Segments

We conduct our operations through two business segments based on the type of product and how we manage the business. We evaluate segment performance and allocate resources based on each segment's operating income. The key operating results for our two business segments, FPD and FCD, are discussed below.

**Flowserve Pump Division Segment Results**

Our largest business segment is FPD, through which we design, manufacture, distribute and service highly custom engineered pumps, pre-configured industrial pumps, pump systems, mechanical seals, auxiliary systems and replacement parts (collectively referred to as "original equipment") and related services. FPD primarily operates in the oil and gas, power generation, chemical and general industries. FPD operates in 40 countries with 41 manufacturing facilities worldwide, 14 of which are located in Europe, 13 in North America, eight in Asia and six in Latin America, and it operates 145 QRCs, including those co-located in manufacturing facilities and/or shared with FCD.

(Amounts in millions, except percentages)	<b>Three Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Bookings	\$ 761.9	\$ 720.8
Sales	674.6	668.4
Gross profit	222.7	186.4
Gross profit margin	33.0%	27.9%
SG&A	150.2	157.0
Segment operating income	76.2	31.6
Segment operating income as a percentage of sales	11.3%	4.7%

(Amounts in millions, except percentages)	<b>Six Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Bookings	\$ 1,512.0	\$ 1,324.9
Sales	1,284.0	1,312.9
Gross profit	423.3	369.8
Gross profit margin	33.0%	28.2%
SG&A	272.6	308.7
Segment operating income	156.6	66.3
Segment operating income as a percentage of sales	12.2%	5.0%

Bookings for the three months ended June 30, 2019 increased by \$41.1 million, or 5.7%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$25 million. The increase in customer bookings was driven by the oil and gas, power generation and water management industries, partially offset by decreased bookings in the chemical and general industries. The three months ended June 30, 2018 included bookings of approximately \$11 million related to the two FPD locations and associated product lines that were divested in the third quarter of 2018. Increased customer bookings of \$47.4 million into the Middle East, \$29.1 million into North America, \$15.3 million into Asia Pacific and \$2.3 million into Africa, were partially offset by decreased customer bookings of \$54.2 million into Europe. The increase was more heavily-weighted towards customer original equipment bookings. Interdivision bookings (which are eliminated and are not included in consolidated bookings as disclosed above) increased by \$0.8 million compared to the same period in 2018.

Bookings for the six months ended June 30, 2019 increased by \$187.1 million, or 14.1%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$54 million. The increase in customer bookings was driven by the oil and gas and water management industries, partially offset by decreased bookings in the general industries and power generation industry. The six months ended June 30, 2018 included bookings of approximately \$25 million related to the two FPD locations and associated product lines that were divested in the third quarter of 2018. Increased customer bookings of \$101.2 million into North America, \$72.5 million into the Middle East, \$61.6 million into Asia Pacific and \$12.6 million in Latin America, were partially offset by decreased customer bookings of \$59.5 million into Europe. The increase was more heavily-weighted towards customer original equipment bookings. Interdivision bookings (which are eliminated and are not included in consolidated bookings as disclosed above) increased by \$1.6 million compared to the same period in 2018.

Sales for the three months ended June 30, 2019 increased \$6.2 million, or 0.9%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$20 million. The three months ended June 30, 2018 included sales of approximately \$14 million related to the two FPD locations and associated product lines that were divested in the third quarter of 2018. The increase was primarily driven by aftermarket services sales. Customer sales increased \$9.0 million into Europe, \$6.8 million into Africa, \$4.1 million into North America and \$1.9 million into Latin America, which were partially offset

by decreased sales of \$15.1 million into Asia Pacific and \$3.6 million into the Middle East. Interdivision sales (which are eliminated and are not included in consolidated sales as disclosed above) decreased by \$0.3 million compared to the same period in 2018.

Sales for the six months ended June 30, 2019 decreased \$28.9 million, or 2.2%, as compared with the same period in 2018. The decrease included negative currency effects of approximately \$43 million. The six months ended June 30, 2018 included sales of approximately \$25 million related to the two FPD locations and associated product lines that were divested in the third quarter of 2018. The decrease was primarily driven by original equipment sales. Customer sales decreased \$29.4 million into Asia Pacific, \$23.1 million into the Middle East and \$7.3 million into North America, which were partially offset by increased sales of \$14.7 million into Europe and \$14.5 million into Africa. Interdivision sales (which are eliminated and are not included in consolidated sales as disclosed above) were flat compared to the same period in 2018.

Gross profit for the three months ended June 30, 2019 increased by \$36.3 million, or 19.5%, as compared with the same period in 2018. Gross profit margin for the three months ended June 30, 2019 of 33.0% increased from 27.9% for the same period in 2018. The increase in gross profit margin was primarily attributable to revenue recognized on higher margin projects, lower realignment charges associated with our Realignment Programs, improvements in operational efficiency and a \$7.7 million charge related to the write-down of inventory in the second quarter of 2018 that did not recur, which was associated with the divestiture of two FPD locations in the third quarter of 2018.

Gross profit for the six months ended June 30, 2019 increased by \$53.5 million, or 14.5%, as compared with the same period in 2018. Gross profit margin for the six months ended June 30, 2019 of 33.0% increased from 28.2% for the same period in 2018. The increase in gross profit margin was primarily attributable to revenue recognized on higher margin projects, lower realignment charges associated with our Realignment Programs, sales mix shift to higher margin aftermarket sales, improvements in operational efficiency and a \$7.7 million charge related to the write-down of inventory in the second quarter of 2018 that did not recur, which was associated with the divestiture of two FPD locations in the third quarter of 2018, partially offset by the unfavorable impact of decreased sales on our absorption of fixed manufacturing costs.

SG&A for the three months ended June 30, 2019 decreased by \$6.8 million, or 4.3%, as compared with the same period in 2018. Currency effects provided a decrease of approximately \$4 million. The decrease in SG&A is primarily related to favorable impacts resulting from the 2018 divestiture of two FPD locations and a \$9.7 million impairment charge related to long-lived assets in the second quarter of 2018 that did not recur.

SG&A for the six months ended June 30, 2019 decreased by \$36.1 million, or 11.7%, as compared with the same period in 2018. Currency effects provided a decrease of approximately \$8 million. The decrease in SG&A is primarily due to favorable impacts on SG&A due to gains from the sales of non-strategic manufacturing facilities in the first quarter of 2019, the 2018 divestiture of two FPD locations and a \$9.7 million impairment charge related to the long-lived assets in the second quarter of 2018 that did not recur.

Operating income for the three months ended June 30, 2019 increased by \$44.6 million, or 141.1%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$3 million. The increase was primarily due to the \$36.3 million increase in gross profit and the \$6.8 million decrease in SG&A.

Operating income for the six months ended June 30, 2019 increased by \$90.3 million, or 136.2%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$7 million. The increase was primarily due to the \$53.5 million increase in gross profit and the \$36.1 million decrease in SG&A.

Backlog of \$1,494.9 million at June 30, 2019 increased by \$295.6 million, or 24.6%, as compared with December 31, 2018. Currency effects provided an increase of approximately \$6 million. Backlog at June 30, 2019 and December 31, 2018 included \$2.7 million and \$3.0 million, respectively, of interdivision backlog (which is eliminated and not included in consolidated backlog as disclosed above).

**Flow Control Division Segment Results**

FCD designs, manufactures and distributes a broad portfolio of engineered-to-order and configured-to-order isolation valves, control valves, valve automation products, boiler controls and related services. FCD leverages its experience and application know-how by offering a complete menu of engineered services to complement its expansive product portfolio. FCD has a total of 47 manufacturing facilities and QRCs in 21 countries around the world, with five of its 21 manufacturing operations located in the U.S., 10 located in Europe, five located in Asia Pacific and one located in Latin America. Based on independent industry sources, we believe that FCD is the third largest industrial valve supplier on a global basis.

(Amounts in millions, except percentages)	<b>Three Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Bookings	\$ 346.4	\$ 318.6
Sales	316.9	306.5
Gross profit	99.4	101.0
Gross profit margin	31.4%	33.0%
SG&A	53.3	53.9
Segment operating income	46.2	46.4
Segment operating income as a percentage of sales	14.6%	15.1%

(Amounts in millions, except percentages)	<b>Six Months Ended June 30,</b>	
	<b>2019</b>	<b>2018</b>
Bookings	\$ 659.6	\$ 645.3
Sales	599.1	583.7
Gross profit	197.2	189.2
Gross profit margin	32.9%	32.4%
SG&A	106.6	108.2
Segment operating income	90.6	80.3
Segment operating income as a percentage of sales	15.1%	13.8%

Bookings for the three months ended June 30, 2019 increased by \$27.8 million, or 8.7%, as compared with the same period in 2018. Bookings included negative currency effects of approximately \$10 million. Increased customer bookings in the chemical, oil and gas, water management and general industries were partially offset by decreased bookings in the power generation industry. Increased customer bookings of \$25.6 million into Europe, \$11.6 million into the Middle East and \$6.0 million into Asia Pacific were partially offset by decreased bookings of \$20.1 million into North America, \$3.0 million into Latin America and \$1.5 million into Africa. The increase was driven by customer original equipment bookings.

Bookings for the six months ended June 30, 2019 increased by \$14.3 million, or 2.2%, as compared with the same period in 2018. Bookings included negative currency effects of approximately \$21 million. Increased customer bookings in the chemical and oil and gas industries were partially offset by decreased bookings in the general industries. Increased customer bookings of \$17.6 million into Europe, \$12.6 million into the Middle East and \$1.7 million into Asia Pacific, were partially offset by decreased bookings of \$7.4 million into North America, \$6.3 million into Africa and \$2.3 million into Latin America. The increase was driven by customer original equipment bookings.

Sales for the three months ended June 30, 2019 increased \$10.4 million, or 3.4%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$9 million. Increased sales were primarily driven by original equipment sales. The increase was primarily driven by increased customer sales of \$8.0 million into Europe, \$6.9 million into Asia Pacific, \$4.8 million into Latin America and \$1.4 million into North America, partially offset by decreased sales of \$6.9 million into the Middle East and \$3.2 million into Africa.

Sales for the six months ended June 30, 2019 increased \$15.4 million, or 2.6%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$18 million. Increased sales were primarily driven by original equipment sales. The increase was primarily driven by increased customer sales of \$11.6 million into Europe, \$11.3 million into North America, \$7.6 million into Asia Pacific and \$4.9 million into Latin America, partially offset by decreased sales of \$14.7 million into the Middle East and \$5.8 million into Africa.

Gross profit for the three months ended June 30, 2019 decreased by \$1.6 million, or 1.6%, as compared with the same period in 2018. Gross profit margin for the three months ended June 30, 2019 of 31.4% decreased from 33.0% for the same period in 2018. The decrease in gross profit margin was primarily attributed to revenue recognized on lower margin original equipment orders.

Gross profit for the six months ended June 30, 2019 increased by \$8.0 million, or 4.2%, as compared with the same period in 2018. Gross profit margin for the six months ended June 30, 2019 of 32.9% increased from 32.4% for the same period in 2018. The increase in gross profit margin was primarily attributable to decreased charges and increased savings related to our Realignment Programs as compared to the same period in 2018.

SG&A for the three months ended June 30, 2019 decreased by \$0.6 million, or 1.1%, as compared with the same period in 2018. Currency effects provided a decrease of approximately \$1 million.

SG&A for the six months ended June 30, 2019 decreased by \$1.6 million, or 1.5%, as compared with the same period in 2018. Currency effects provided a decrease of approximately \$3 million.

Operating income for the three months ended June 30, 2019 decreased by \$0.2 million, or 0.4%, as compared with the same period in 2018. The decrease included negative currency effects of approximately \$1 million.

Operating income for the six months ended June 30, 2019 increased by \$10.3 million, or 12.8%, as compared with the same period in 2018. The increase included negative currency effects of approximately \$2 million. The increase was primarily due to the \$8.0 million increase in gross profit.

Backlog of \$665.6 million at June 30, 2019 increased by \$57.2 million, or 9.4%, as compared with December 31, 2018. Currency effects provided a decrease of approximately \$3 million.

## LIQUIDITY AND CAPITAL RESOURCES

### *Cash Flow and Liquidity Analysis*

(Amounts in millions)	Six Months Ended June 30,	
	2019	2018
Net cash flows provided (used) by operating activities	\$ 49.4	\$ (56.7)
Net cash flows provided (used) by investing activities	15.0	(30.8)
Net cash flows provided (used) by financing activities	(86.8)	(87.2)

Existing cash, cash generated by operations and borrowings available under our existing Revolving Credit Facility are our primary sources of short-term liquidity. We monitor the depository institutions that hold our cash and cash equivalents on a regular basis, and we believe that we have placed our deposits with creditworthy financial institutions. Our sources of operating cash generally include the sale of our products and services and the conversion of our working capital, particularly accounts receivable and inventories. Our cash balance at June 30, 2019 was \$596.5 million, as compared with \$619.7 million at December 31, 2018.

Our cash balance decreased by \$23.2 million to \$596.5 million at June 30, 2019, as compared with December 31, 2018. The cash activity during the first six months of 2019 included \$38.9 million of proceeds from the sale of non-strategic manufacturing facilities that are included in our Realignment Programs, \$49.8 million in dividend payments and \$30.0 million of payments on long-term debt.

For the six months ended June 30, 2019, our cash provided by operating activities was \$49.4 million, as compared to cash used by operating activities of \$56.7 million for the same period in 2018. Cash flow provided by working capital increased for the six months ended June 30, 2019, due primarily to improved cash flow related to contract assets, accounts receivable, contract liabilities and inventories, partially offset by accrued liabilities and income taxes payable and accounts payable.

Increases in accounts receivable used \$13.4 million of cash flow for the six months ended June 30, 2019, as compared to \$32.2 million for the same period in 2018. As of June 30, 2019, our days' sales outstanding ("DSO") was 73 days as compared with 75 days as of June 30, 2018.

Decreases in contract assets provided \$12.4 million of cash flow for the six months ended June 30, 2019, as compared to cash used of \$48.9 million for the six months ended June 30, 2018.

Increases in inventory used \$47.6 million and \$57.4 million of cash flow for the six months ended June 30, 2019 and June 30, 2018, respectively. Inventory turns were 3.9 times at June 30, 2019, compared with 4.1 times for the same period in 2018.

Decreases in accounts payable used \$20.7 million of cash flow for the six months ended June 30, 2019 as compared with \$10.6 million for the same period in 2018. Decreases in accrued liabilities and income taxes payable used \$56.9 million of cash flow for the six months ended June 30, 2019, as compared with \$44.8 million for the same period in 2018.

Cash flows provided by investing activities during the six months ended June 30, 2019 were \$15.0 million, as compared with cash used of \$30.8 million for the same period in 2018. Capital expenditures during the six months ended June 30, 2019 were \$25.3 million, a decrease of \$6.5 million as compared with the same period in 2018. Our capital expenditures are generally focused on strategic initiatives to pursue new markets, geographic expansion, information technology infrastructure, ongoing scheduled replacements and upgrades, and cost reduction opportunities. In 2019, total capital expenditures are expected to be between \$90 million and \$100 million. In addition, proceeds from disposal of assets during the six months ended June 30, 2019 provided \$40.3 million, primarily from the sale of non-strategic manufacturing facilities that are included in our Realignment Programs.

Cash flows used by financing activities during the six months ended June 30, 2019 were \$86.8 million, as compared with \$87.2 million for the same period in 2018. Cash outflows during the six months ended June 30, 2019 resulted primarily from \$49.8 million of dividend payments and \$30.0 million of payments on long-term debt.

As of June 30, 2019, we had an available capacity of \$692.0 million on our \$800.0 million Revolving Credit Facility. Our borrowing capacity is subject to financial covenant limitations based on the terms of our Senior Credit Facility and is also reduced by outstanding letters of credit. On July 16, 2019, we borrowed approximately \$75.0 million under the New Senior Credit Facility, which provides for a \$800.0 million unsecured revolving credit facility with a maturity date of July 16, 2024, to repay all outstanding indebtedness under our Senior Credit Facility. In connection with this repayment, our outstanding letters of credit under the Senior Credit Facility were transferred to the New Senior Credit Facility, and we terminated the Senior Credit Facility. Our New Senior Credit Facility is committed and held by a diversified group of financial institutions. Refer to Note 7 to our condensed consolidated financial statements included in this Quarterly Report for additional information concerning our New Senior Credit Facility.

During the six months ended June 30, 2019, we contributed \$6.0 million to our U.S. pension plan, while for the same period in 2018, we made no cash contributions to the plan. At December 31, 2018 our U.S. pension plan was fully funded as defined by applicable law. After consideration of our funded status, we currently anticipate making approximately \$20 million in contributions to our U.S. pension plan in 2019, excluding direct benefits paid. We continue to maintain an asset allocation consistent with our strategy to maximize total return, while reducing portfolio risks through asset class diversification.

Considering our current debt structure and cash needs, we currently believe cash flows generated from operating activities combined with availability under our Revolving Credit Facility and our existing cash balance will be sufficient to meet our cash needs for the next 12 months. Cash flows from operations could be adversely affected by economic, political and other risks associated with sales of our products, operational factors, competition, fluctuations in foreign exchange rates and fluctuations in interest rates, among other factors. See "Cautionary Note Regarding Forward-Looking Statements" below.

As of June 30, 2019, we have \$160.7 million of remaining capacity for Board of Directors approved shares repurchases. While we intend to continue to return cash through dividends and/or share repurchases for the foreseeable future, any future returns of cash through dividends and/or share repurchases will be reviewed individually, declared by our Board of Directors at its discretion and implemented by management.

## **Financing**

### ***Credit Facilities***

See Note 11 to our consolidated financial statements included in our 2018 Annual Report and Note 7 to our condensed consolidated financial statements included in this Quarterly Report for a discussion of our Senior Credit Facility, New Senior Credit Facility and related covenants. We were in compliance with all applicable covenants under our Senior Credit Facility as of June 30, 2019.

## **CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Management's discussion and analysis of financial condition and results of operations are based on our condensed consolidated financial statements and related footnotes contained within this Quarterly Report. Our critical accounting policies used in the preparation of our condensed consolidated financial statements were discussed in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" of our 2018 Annual Report. These critical policies, for which no significant changes have occurred in the six months ended June 30, 2019, include:

- Revenue Recognition;

- Deferred Taxes, Tax Valuation Allowances and Tax Reserves;
- Reserves for Contingent Loss;
- Retirement and Postretirement Benefits; and
- Valuation of Goodwill, Indefinite-Lived Intangible Assets and Other Long-Lived Assets.

The process of preparing condensed consolidated financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions to determine certain of the assets, liabilities, revenues and expenses. These estimates and assumptions are based upon what we believe is the best information available at the time of the estimates or assumptions. The estimates and assumptions could change materially as conditions within and beyond our control change. Accordingly, actual results could differ materially from those estimates. The significant estimates are reviewed quarterly with the Audit Committee of our Board of Directors.

Based on an assessment of our accounting policies and the underlying judgments and uncertainties affecting the application of those policies, we believe that our condensed consolidated financial statements provide a meaningful and fair perspective of our consolidated financial condition and results of operations. This is not to suggest that other general risk factors, such as changes in worldwide demand, changes in material costs, performance of acquired businesses and others, could not adversely impact our consolidated financial condition, results of operations and cash flows in future periods. See "Cautionary Note Regarding Forward-Looking Statements" below.

## ACCOUNTING DEVELOPMENTS

We have presented the information about pronouncements not yet implemented in Note 1 to our condensed consolidated financial statements included in this Quarterly Report.

### Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. Words or phrases such as, "may," "should," "expects," "could," "intends," "plans," "anticipates," "estimates," "believes," "predicts" or other similar expressions are intended to identify forward-looking statements, which include, without limitation, statements concerning our future financial performance, future debt and financing levels, investment objectives, implications of litigation and regulatory investigations and other management plans for future operations and performance.

The forward-looking statements included in this Quarterly Report are based on our current expectations, projections, estimates and assumptions. These statements are only predictions, not guarantees. Such forward-looking statements are subject to numerous risks and uncertainties that are difficult to predict. These risks and uncertainties may cause actual results to differ materially from what is forecast in such forward-looking statements, and include, without limitation, the following:

- a portion of our bookings may not lead to completed sales, and our ability to convert bookings into revenues at acceptable profit margins;
- changes in the global financial markets and the availability of capital and the potential for unexpected cancellations or delays of customer orders in our reported backlog;
- our dependence on our customers' ability to make required capital investment and maintenance expenditures;
- if we are not able to successfully execute and realize the expected financial benefits from our strategic transformation, realignment and other cost-saving initiatives, our business could be adversely affected;
- risks associated with cost overruns on fixed fee projects and in accepting customer orders for large complex custom engineered products;
- the substantial dependence of our sales on the success of the oil and gas, chemical, power generation and water management industries;
- the adverse impact of volatile raw materials prices on our products and operating margins;
- economic, political and other risks associated with our international operations, including military actions, trade embargoes or changes to tariffs or trade agreements that could affect customer markets, particularly North African, Russian and Middle Eastern markets and global oil and gas producers, and non-compliance with U.S. export/reexport control, foreign corrupt practice laws, economic sanctions and import laws and regulations;
- increased aging and slower collection of receivables, particularly in Latin America and other emerging markets;
- our exposure to fluctuations in foreign currency exchange rates, particularly the Euro and British pound and in hyperinflationary countries such as Venezuela and Argentina;
- our furnishing of products and services to nuclear power plant facilities and other critical applications;
- potential adverse consequences resulting from litigation to which we are a party, such as litigation involving asbestos-containing material claims;
- expectations regarding acquisitions and the integration of acquired businesses;
- our relative geographical profitability and its impact on our utilization of deferred tax assets, including foreign tax credits;
- the potential adverse impact of an impairment in the carrying value of goodwill or other intangible assets;

- our dependence upon third-party suppliers whose failure to perform timely could adversely affect our business operations;
- the highly competitive nature of the markets in which we operate;
- environmental compliance costs and liabilities;
- potential work stoppages and other labor matters;
- access to public and private sources of debt financing;
- our inability to protect our intellectual property in the U.S., as well as in foreign countries;
- obligations under our defined benefit pension plans;
- our internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls, or fraud;
- the recording of increased deferred tax asset valuation allowances in the future or the impact of tax law changes on such deferred tax assets could affect our operating results;
- risks and potential liabilities associated with cyber security threats; and
- ineffective internal controls could impact the accuracy and timely reporting of our business and financial results.

These and other risks and uncertainties are more fully discussed in the risk factors identified in "Item 1A. Risk Factors" in Part I of our 2018 Annual Report and Part II of this Quarterly Report, and may be identified in our Quarterly Reports on Form 10-Q and our other filings with the SEC and/or press releases from time to time. All forward-looking statements included in this document are based on information available to us on the date hereof, and we assume no obligation to update any forward-looking statement.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

We have market risk exposure arising from changes in interest rates and foreign currency exchange rate movements in foreign exchange contracts. We are exposed to credit-related losses in the event of non-performance by counterparties to financial instruments, but we currently expect our counterparties will continue to meet their obligations given their current creditworthiness.

#### **Interest Rate Risk**

Our earnings are impacted by changes in short-term interest rates as a result of borrowings under our Senior Credit Facility, which bear interest based on floating rates. At June 30, 2019, we had \$75.0 million of variable rate debt obligations outstanding under our Senior Credit Facility with a weighted average interest rate of 3.83%. A hypothetical change of 100 basis points in the interest rate for these borrowings, assuming constant variable rate debt levels, would have changed interest expense by less than \$1.0 million for the six months ended June 30, 2019.

#### **Foreign Currency Exchange Rate Risk**

A substantial portion of our operations are conducted by our subsidiaries outside of the U.S. in currencies other than the U.S. dollar. Almost all of our non-U.S. subsidiaries conduct their business primarily in their local currencies, which are also their functional currencies. Foreign currency exposures arise from translation of foreign-denominated assets and liabilities into U.S. dollars and from transactions, including firm commitments and anticipated transactions, denominated in a currency other than our or a non-U.S. subsidiary's functional currency. In March 2015, we designated €255.7 million of our €500.0 million 2022 Euro Senior Notes as a net investment hedge of our investments in certain of our international subsidiaries that use the Euro as their functional currency. Generally, we view our investments in foreign subsidiaries from a long-term perspective and use capital structuring techniques to manage our investment in foreign subsidiaries as deemed necessary. We realized net (losses) gains associated with foreign currency translation of \$(2.8) million and \$(61.0) million for the three months ended June 30, 2019 and 2018, respectively, and \$4.1 million and \$(41.5) million for the six months ended June 30, 2019 and 2018, respectively which are included in other comprehensive income (loss).

We employ a foreign currency risk management strategy to minimize potential changes in cash flows from unfavorable foreign currency exchange rate movements. Where available, the use of foreign exchange contracts allows us to mitigate transactional exposure to exchange rate fluctuations as the gains or losses incurred on the foreign exchange contracts will offset, in whole or in part, losses or gains on the underlying foreign currency exposure. As of June 30, 2019, we had a U.S. dollar equivalent of \$332.8 million in aggregate notional amount outstanding in foreign exchange contracts with third parties, as compared with \$280.9 million at December 31, 2018. Transactional currency gains and losses arising from transactions outside of our sites' functional currencies and changes in fair value of non-designated foreign exchange contracts are included in our consolidated results of operations. We recognized foreign currency net losses of \$3.1 million and \$4.1 million for the three months ended June 30, 2019 and 2018, respectively, and \$5.8 million and \$12.0 million for the six months ended June 30, 2019 and 2018, respectively, which are included in other income (expense), net in the accompanying condensed consolidated statements of income.

Based on a sensitivity analysis at June 30, 2019, a 10% change in the foreign currency exchange rates for the six months ended June 30, 2019 would have impacted our net earnings by approximately \$10 million. This calculation assumes that all currencies change in the same direction and proportion relative to the U.S. dollar and that there are no indirect effects, such as changes in non-U.S. dollar sales volumes or prices. This calculation does not take into account the impact of the foreign currency exchange contracts discussed above.

### **Item 4. Controls and Procedures.**

#### **Disclosure Controls and Procedures**

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) are controls and other procedures that are designed to ensure that the information that we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our

management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with the preparation of this Quarterly Report, our management, under the supervision and with the participation of our Principal Executive Officer and Principal Financial Officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2019. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of June 30, 2019.

#### **Changes in Internal Control Over Financial Reporting**

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended June 30, 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II — OTHER INFORMATION****Item 1. Legal Proceedings.**

We are party to the legal proceedings that are described in Note 11 to our condensed consolidated financial statements included in "Item 1. Financial Statements" of this Quarterly Report, and such disclosure is incorporated by reference into this "Item 1. Legal Proceedings." In addition to the foregoing, we and our subsidiaries are named defendants in certain other ordinary routine lawsuits incidental to our business and are involved from time to time as parties to governmental proceedings, all arising in the ordinary course of business. Although the outcome of lawsuits or other proceedings involving us and our subsidiaries cannot be predicted with certainty, and the amount of any liability that could arise with respect to such lawsuits or other proceedings cannot be predicted accurately, management does not currently expect the amount of any liability that could arise with respect to these matters, either individually or in the aggregate, to have a material adverse effect on our financial position, results of operations or cash flows.

**Item 1A. Risk Factors.**

There are numerous factors that affect our business and results of operations, many of which are beyond our control. In addition to other information set forth in this Quarterly Report, careful consideration should be given to "Item 1A. Risk Factors" in Part I and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II of our 2018 Annual Report, which contain descriptions of significant factors that might cause the actual results of operations in future periods to differ materially from those currently expected or desired.

There have been no material changes in risk factors discussed in our 2018 Annual Report and subsequent SEC filings. The risks described in this Quarterly Report, our 2018 Annual Report and in our other SEC filings or press releases from time to time are not the only risks we face. Additional risks and uncertainties are currently deemed immaterial based on management's assessment of currently available information, which remains subject to change; however, new risks that are currently unknown to us may surface in the future that materially adversely affect our business, financial condition, results of operations or cash flows.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

Note 13 to our condensed consolidated financial statements included in this Quarterly Report includes a discussion of our share repurchase program and payment of quarterly dividends on our common stock.

During the quarter ended June 30, 2019, we had no repurchases of common shares. As of June 30, 2019, we have \$160.7 million of remaining capacity under our current share repurchase program. The following table sets forth the activity for each of the three months during the quarter ended June 30, 2019:

Period	Total Number of Shares Tendered	Average Price per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares (or Approximate Dollar Value) That May Yet Be Purchased Under the Program (in millions)
April 1 - 30	8,194 (1)	\$ 46.52	—	\$ 160.7
May 1 - 31	3,923 (2)	49.06	—	160.7
June 1 - 30	1,297 (1)	48.85	—	160.7
Total	13,414	\$ 47.49	—	

(1) Shares tendered by employees to satisfy minimum tax withholding amounts for Restricted Shares.

(2) Represents 2,715 shares that were tendered by employees to satisfy minimum tax withholding amounts for Restricted Shares at an average price per share of \$49.69, and 1,208 shares purchased at a price of \$47.62 per share by a rabbi trust that we established in connection with our director deferral plans, pursuant to which non-employee directors may elect to defer directors' quarterly cash compensation to be paid at a later date in the form of common stock.

**Item 3. Defaults Upon Senior Securities.**

Not applicable.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**Item 5. Other Information.**

None

**Item 6. Exhibits**

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER  
PURSUANT TO SECTION 302  
OF THE SARBANES-OXLEY ACT OF 2002**

I, R. Scott Rowe, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2019 of Flowserve Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: July 31, 2019

(Principal Executive Officer)

**CERTIFICATION OF PRINCIPAL FINANCIAL OFFICER  
PURSUANT TO SECTION 302  
OF THE SARBANES-OXLEY ACT OF 2002**

I, Lee S. Eckert, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2019 of Flowserve Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: July 31, 2019

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350  
AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

I, R. Scott Rowe, President and Chief Executive Officer of Flowserve Corporation (the "Company"), certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

(1) the Quarterly Report on Form 10-Q of the Company for the period ended June 30, 2019, as filed with the Securities and Exchange Commission on the date hereof (the "Quarterly Report"), fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) the information contained in the Quarterly Report fairly presents, in all material respects, the consolidated financial condition and results of operations of the Company.
