Safe Harbor Statement

Safe Harbor Statement: This presentation includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. Words or phrases such as, "may," "should," "expects," "could," "intends," "plans," "anticipates," "estimates," "believes," "forecasts," "predicts" or other similar expressions are intended to identify forward-looking statements, which include, without limitation, earnings forecasts, statements relating to our business strategy and statements of expectations, beliefs, future plans and strategies and anticipated developments concerning our industry, business, operations and financial performance and condition.

The forward-looking statements included in this presentation are based on our current expectations, projections, estimates and assumptions. These statements are only predictions, not guarantees. Such forward-looking statements are subject to numerous risks and uncertainties that are difficult to predict. These risks and uncertainties may cause actual results to differ materially from what is forecast in such forward-looking statements, and include, without limitation, the following: a portion of our bookings may not lead to completed sales, and our ability to convert bookings into revenues at acceptable profit margins; changes in the global financial markets and the availability of capital and the potential for unexpected cancellations or delays of customer orders in our reported backlog; our dependence on our customers' ability to make required capital investment and maintenance expenditures; risks associated with cost overruns on fixed-fee projects and in taking customer orders for large complex custom engineered products; the substantial dependence of our sales on the success of the oil and gas, chemical, power generation and water management industries; the adverse impact of volatile raw materials prices on our products and operating margins; economic, political and other risks associated with our international operations, including military actions or trade embargoes that could affect customer markets, particularly Russian and Middle Eastern markets and global oil and gas producers, and non-compliance with U.S. export/re-export control, foreign corrupt practice laws, economic sanctions and import laws and regulations; our exposure to fluctuations in foreign currency exchange rates, including in hyperinflationary countries such as Venezuela; our furnishing of products and services to nuclear power plant facilities and other critical processes; potential adverse consequences resulting from litigation to which we are a party, such as litigation involving asbestos-containing material claims; a foreign government investigation regarding our participation in the United Nations Oil-for-Food Program; expectations regarding acquisitions and the integration of acquired businesses; our relative geographical profitability and its impact on our utilization of deferred tax assets, including foreign tax credits; the potential adverse impact of an impairment in the carrying value of goodwill or other intangible assets; our dependence upon third-party suppliers whose failure to perform timely could adversely affect our business operations; the highly competitive nature of the markets in which we operate; environmental compliance costs and liabilities; potential work stoppages and other labor matters; our inability to protect our intellectual property in the U.S., as well as in foreign countries; obligations under our defined benefit pension plans; and other factors described from time to time in our filings with the Securities and Exchange Commission.

All forward-looking statements included in this presentation are based on information available to us on the date hereof, and we assume no obligation to update any forward-looking statement.

Flowserve Overview

- **Leading manufacturer and aftermarket service provider of comprehensive flow control systems**
  - History dates back to 1790 with more than 50 well-respected brands such as Worthington, IDP, Valtek, Limitorque, Durco and Edward
  - Our pure-play flow control model focus of industry participants
- **Design, develop, manufacture and repair precision-engineered flow control equipment for customers' critical processes**
  - Portfolio includes pumps, valves, seals and support systems, automation and aftermarket services supporting global infrastructure
  - Focused on oil & gas, power, chemical, water and general industries
- **Worldwide presence with approximately 18,000 employees**
  - 69 manufacturing facilities and 176 aftermarket Quick Response Centers (QRCs) with Flowserve employees in more than 50 countries
- **Long-term relationships with leading energy customers**
  - National and international oil & gas, chemical and power companies, engineering & construction firms, and global distributors
- **Established commitment to safety, customer service, and quality with a strong ethical, compliance and performance culture**

Investment Highlights

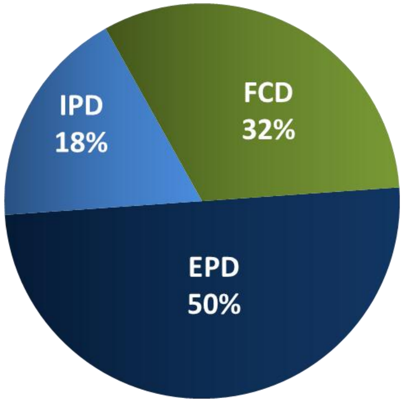
- Focused flow control provider engaged primarily in energy infrastructure markets
- Diversified business model provides stability and foundation for earnings growth
  - Broad portfolio of distinguished brand names, with over 10,000 customers globally
  - Stable business platform due to global geographic exposure and mix of industries served
  - Combination of run-rate and large, late-cycle original equipment with recurring aftermarket
  - Substantial installed base in existing infrastructure with global aftermarket QRC network
- Emphasis on operational excellence drives margin and cash flow improvement
- Experienced, shareholder focused leadership team - ***"One Flowserve"***
- Growth pursued through customer focus, innovation, expanding capabilities and strategic investments, primarily in emerging markets
- Disciplined capital allocation with emphasis on growth and shareholder value
- Expected growth will leverage earnings power of improving operating platform

Strong expected cash flow generation focused on growth initiatives and returns to shareholders

Diversified Business Model

Diverse mix of products, end markets and geographies provided earnings stability through the cycle and decreases risk profile

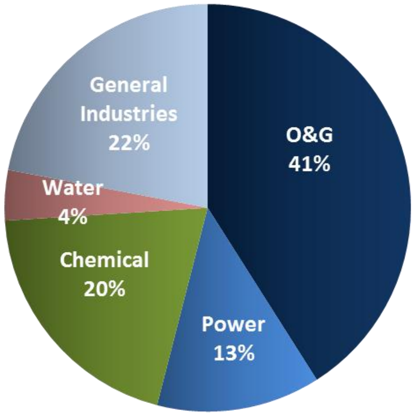
Segment Breakdown
2013 Sales - $5.0B



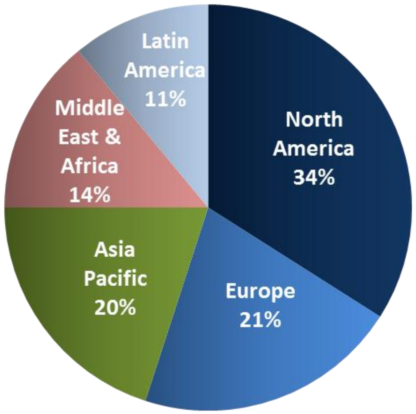
Operating Segments

- Engineered Product Division (EPD) - highly-engineered pumps, seals and systems
- Industrial Product Division (IPD) - pre-configured pumps and systems
- Flow Control Division (FCD) - industrial valves and automation solutions

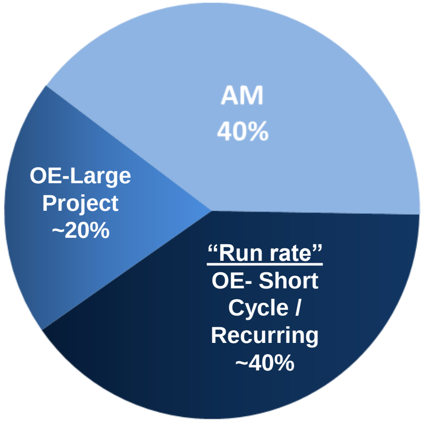
Energy-focused End Markets
2013 Bookings - $4.9B



Geographic Exposure
2013 Sales

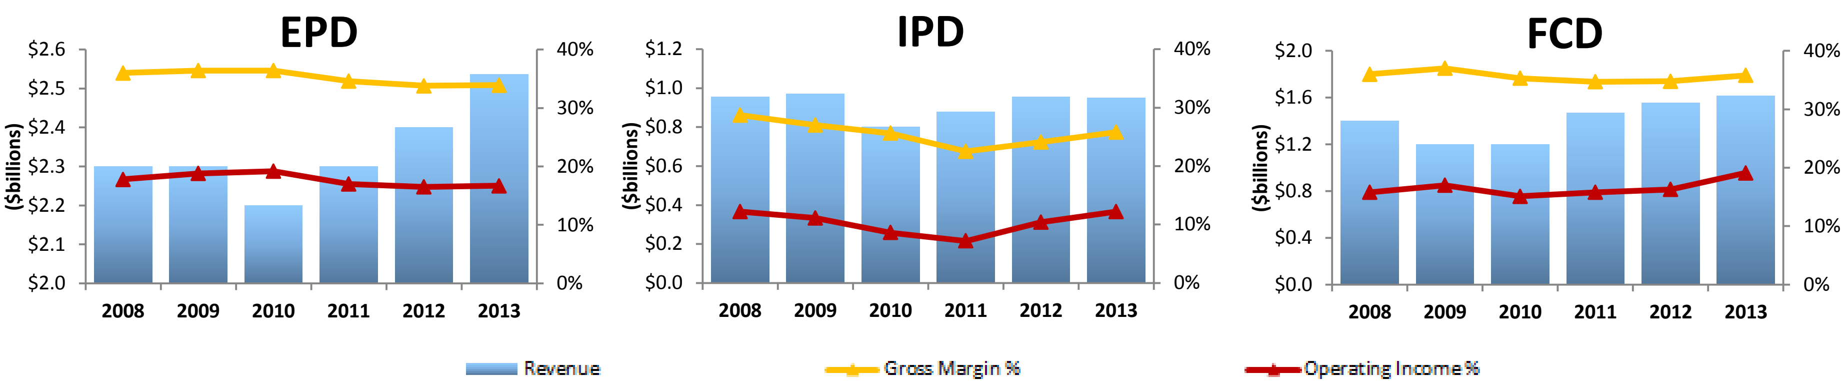


Diverse OE / AM Mix
2013 Sales



Balanced flow control portfolio of products and aftermarket services provides diversification and reduces earnings risk profile

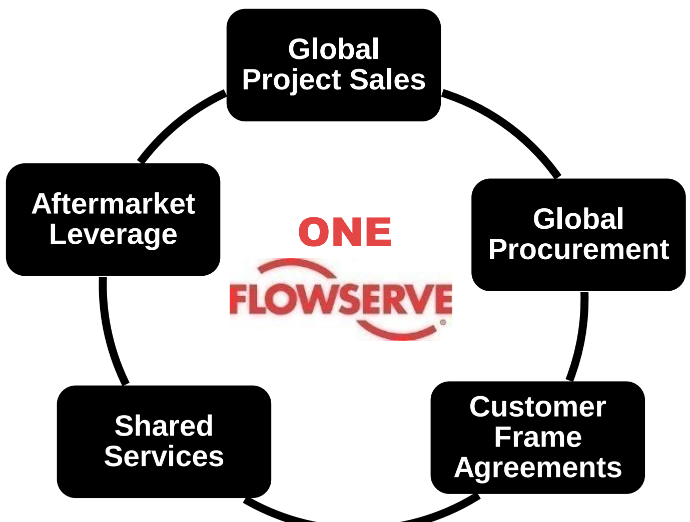
Broad Flow Control Platform



- Engineered Custom
- Late and long cycle-business
- Growing market share
- Solid aftermarket
- Direct sales to customers

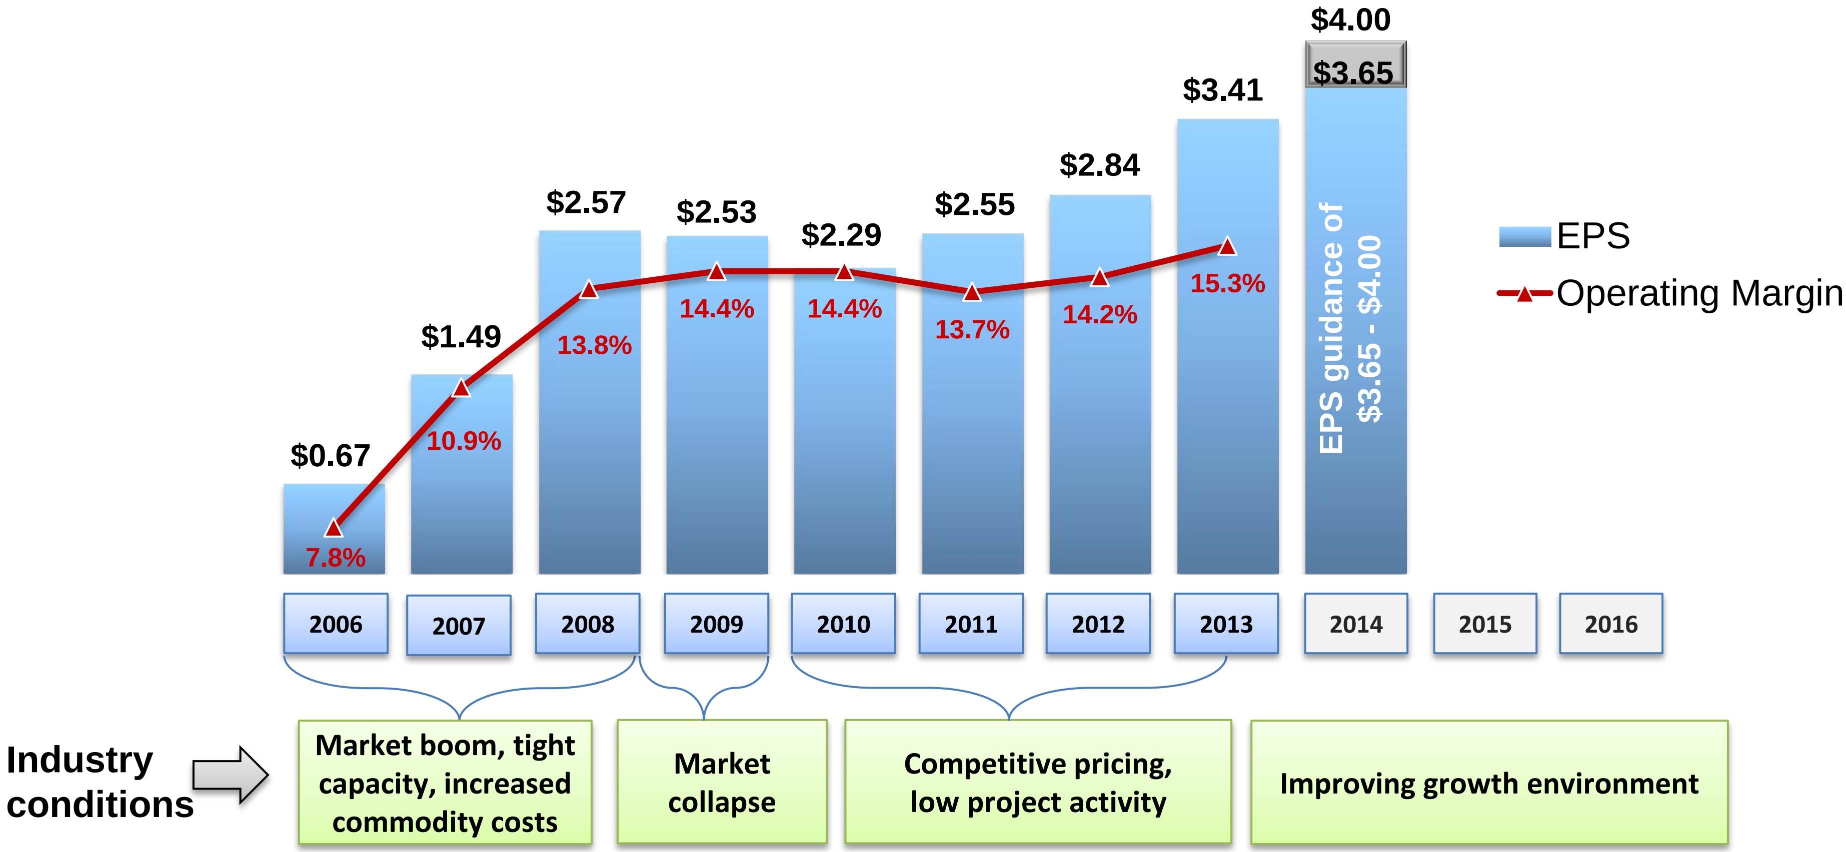
- Participates in projects
- Engineered to specifications
- Focus on improving product gaps
- Improving execution
- Direct sales and distribution

- Increasing exposure to oil and gas segment
- Consistent strong execution
- Focused on growth
- Direct sales and distribution



Experience In Motion

Earnings Stability Through the Cycle



Disciplined execution of strategies and operating excellence drive earnings and cash generation for growth investments

Flowserve's Served Market

- Flowserve offers the market a broad range of flow control products
- Served markets represent ~75% of total available market
- Pump, valve & seal spend increasingly taking place in developing regions
- Developing markets accounted for nearly 60% of 2013 spend

Total Available Market

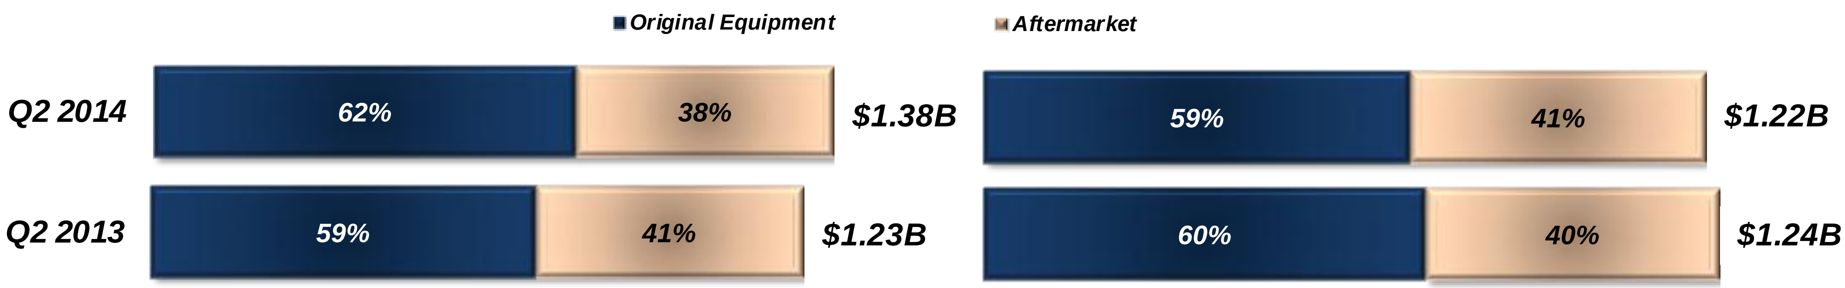
APPENDIX

Q2 2014 Consolidated Bookings & Sales

BOOKINGS | **SALES**



Bookings

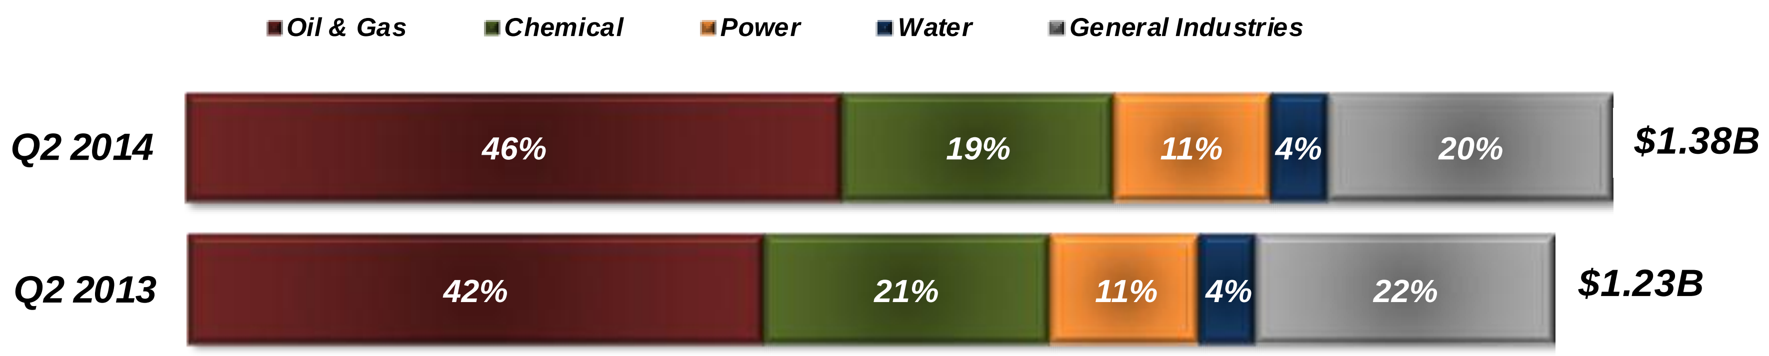
- Bookings in Q2 2014 increased 12.6%, or 12.8% on a constant currency basis, driven primarily by strength in all industries, particularly oil and gas
  - Original equipment bookings increased 17.7% year-over-year, 25.9% sequentially
  - Aftermarket bookings increased 5.3% year-over-year, 2.9% sequentially

Sales

- Sales in Q2 2014 decreased 1.2%, or 1.5% on a constant currency basis, driven primarily by lower original equipment sales – Regionally, decreased sales into Europe were partially offset by increased sales into Latin American and North America

Source: Flowserve Internal Data

Q2 2014 Bookings & Industry Outlook



OIL & GAS

- ✓ *Market conditions support price levels that encourage investment; ongoing signs of increased discipline in some upstream capital expenditures*
- ✓ *Geopolitical conflicts in key energy producing regions cause uncertainties; potential to drive capital deployment toward stable countries*
- ✓ *New refining capacity additions in the Middle East and other developing economies; clean fuels initiatives also prompt spending*

POWER

- ✓ *Coal-fired power investment in Europe driven by favorable economics and the region's partial retreat away from nuclear power generation*
- ✓ *China accounts for the largest share of new nuclear opportunities; US nuclear fleet may benefit from newly proposed carbon emissions policy*
- ✓ *The Middle East & North Africa planning to develop significant solar power capacity to diversify its power mix*

CHEMICAL

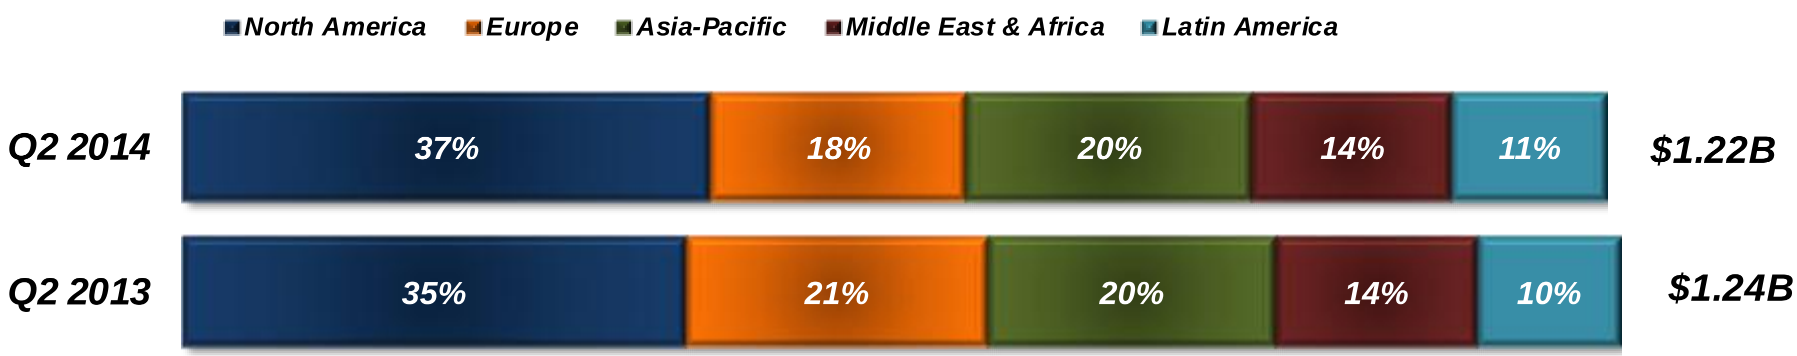
- ✓ *Strong North American market conditions for petrochemicals and derivatives given low-cost natural gas feedstock*
- ✓ *Majority of new chemical capacity still being developed in BRIC countries and other developing economies*

GENERAL INDUSTRIES

- ✓ *Mining down cycle continues; pockets of opportunity exist and fundamental growth drivers persist for the long-term*
- ✓ *Good levels of business activity through distribution channels to general industries*

Sources: *GlobalData, Industrial Info Resources, American Chemistry Council, Global Water Intelligence, ITR Economics, IMF, Flowserve internal data*

Q2 2014 Sales & Regional Outlook



NORTH AMERICA

- ✓ *Continued focus on North American unconventional resources with opportunities upstream, midstream and downstream*
- ✓ *Strong momentum in petrochemicals with additional project announcements, EPC awards and equipment orders*
- ✓ *Power market in flux due to pending environmental regulations and changing economics of power generation technologies*

EUROPE

- ✓ *Western Europe turning the corner from recession to recovery, but political volatility in Eastern Europe and Russia*
- ✓ *Refining and chemical in Western Europe squeezed by the Middle East, US and Asia Pacific capacity additions*

MIDDLE EAST

- ✓ *Numerous opportunities in oil & gas upstream and downstream, particularly in Persian Gulf, but conflict in Iraq a concern*
- ✓ *Ongoing activity in power generation, desalination and water infrastructure to support economic development in the region*

ASIA-PACIFIC

- ✓ *Growth opportunities throughout energy and industrial markets given the region's economic and environmental development goals*
- ✓ *Over half of global chemical capacity additions planned for China, India and other Asia Pacific countries over the next five years*

LATIN AMERICA

- ✓ *Both Brazil deep water oil & gas and Mexico's proposed energy reforms promising for growth in the region*
- ✓ *Latin America a key mining market, particularly for copper; industry spending on projects restrained*
