Safe Harbor Statement

Safe Harbor Statement: This presentation includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. Words or phrases such as, "may," "should," "expects," "could," "intends," "plans," "anticipates," "estimates," "believes," "forecasts," "predicts" or other similar expressions are intended to identify forward-looking statements, which include, without limitation, earnings forecasts, statements relating to our business strategy and statements of expectations, beliefs, future plans and strategies and anticipated developments concerning our industry, business, operations and financial performance and condition.

The forward-looking statements included in this presentation are based on our current expectations, projections, estimates and assumptions. These statements are only predictions, not guarantees. Such forward-looking statements are subject to numerous risks and uncertainties that are difficult to predict. These risks and uncertainties may cause actual results to differ materially from what is forecast in such forward-looking statements, and include, without limitation, the following: a portion of our bookings may not lead to completed sales, and our ability to convert bookings into revenues at acceptable profit margins; changes in the global financial markets and the availability of capital and the potential for unexpected cancellations or delays of customer orders in our reported backlog; our dependence on our customers' ability to make required capital investment and maintenance expenditures; risks associated with cost overruns on fixed-fee projects and in taking customer orders for large complex custom engineered products; the substantial dependence of our sales on the success of the oil and gas, chemical, power generation and water management industries; the adverse impact of volatile raw materials prices on our products and operating margins; economic, political and other risks associated with our international operations, including military actions or trade embargoes that could affect customer markets, particularly Russian and Middle Eastern markets and global oil and gas producers, and non-compliance with U.S. export/re-export control, foreign corrupt practice laws, economic sanctions and import laws and regulations; our exposure to fluctuations in foreign currency exchange rates, including in hyperinflationary countries such as Venezuela; our furnishing of products and services to nuclear power plant facilities and other critical processes; potential adverse consequences resulting from litigation to which we are a party, such as litigation involving asbestos-containing material claims; a foreign government investigation regarding our participation in the United Nations Oil-for-Food Program; expectations regarding acquisitions and the integration of acquired businesses; our relative geographical profitability and its impact on our utilization of deferred tax assets, including foreign tax credits; the potential adverse impact of an impairment in the carrying value of goodwill or other intangible assets; our dependence upon third-party suppliers whose failure to perform timely could adversely affect our business operations; the highly competitive nature of the markets in which we operate; environmental compliance costs and liabilities; potential work stoppages and other labor matters; our inability to protect our intellectual property in the U.S., as well as in foreign countries; obligations under our defined benefit pension plans; and other factors described from time to time in our filings with the Securities and Exchange Commission.

All forward-looking statements included in this presentation are based on information available to us on the date hereof, and we assume no obligation to update any forward-looking statement.
SIHI Group BV:

**Strong Strategic and Financial Fit**

- Complementary product offering adding high quality vacuum pumps
- Substantial industry exposure to the desirable chemical market
- Strengthens Flowserve’s Industrial Product Division, providing scale
- Large installed base provides opportunity to accelerate the aftermarket
- Significant prospects to expand geographic reach of product offering
- Experienced employees, many efficient facilities and strong customer relationships
- Meaningful synergies through top-line growth, optimization and cost leverage
SIHI Overview

- Global pumping solution provider with innovative and customized solutions for demanding applications in the process industry
- Headquarters: Itzehoe, Germany
- Key products: Vacuum pumps, fluid pumps, ISO, ring section, side channel, end suction industrial

Products and end markets
- Product sales:
  - Vacuum pumps: 38%
  - Fluid pumps: 30%
  - Service: 18%
  - SIHI dry: 8%
  - ServLarge: 6%

Customer industry:
- Chemicals/Pharma: 47%
- Other Process ind.: 41%
- High vacuum apps.: 7%
- Power generation: 5%

Geographic exposure:
- Europe: 35%
- Asia: 37%
- Americas: 15%
- Export via Europe: 13%

Locations and employees
- 28 Facilities: Germany (3), 1 each in Spain, Belgium, The Netherlands, US, France, Canada, Colombia, China, Thailand, with foundry in UK and 16 service centers around the world
- Employees: ~1,700

Est. 2014 key financial information
- Revenues: ~ €280M
- Gross Margin: ~ 30%
- EBITDA: ~ €30M
Leading Provider of Engineered Vacuum and Fluid Pumps and Related Systems

A Market Leading Player

- #2 globally in process vacuum and a leader in selected fluid applications
- Extensive application knowledge provided to customers across the globe
- Ability to engineer customized pumps and systems is a key differentiator
- Continuous R&D efforts to develop new proprietary pump technologies
- Excellent track record of international projects with blue-chip customers

Engineering and Project Expertise

In 2012, SIHI won all vacuum system orders related to the “SADARA” project including 46 vacuum and compressor systems with a value of €16m plus about €4m engineered fluid systems.

Product Example – Highly Engineered System

Sales Split – Engineered vs. Pre-engineered (1)

<table>

(1) Refers to 2013 European sales of pumps and pump sets.
## Complementary Products and Applications

### Description

- Liquid ring vacuum pumps and compressors
- Engineered vacuum pump, compressor and membrane systems
- Mechatronically controlled dry screw vacuum pumps
- Aftermarket services

### End Markets

- Chemical
- Pharmaceutical
- Industrial
- Refinery

## Vacuum Pumps

- Single-stage chemical process end-suction pumps
- Multi-stage high pressure centrifugal pumps
- Single-stage water standard end-suction pumps
- Hot media centrifugal pumps
- Multi-stage side channel pumps
- Aftermarket services

## Fluid Pumps

- Chemical
- Pharmaceutical
- Industrial
- Food and Beverage
- LPG filling stations
SIHI has a strong presence in Western Europe and is well positioned to expand its existing footprint in growth markets such as Asia, the Americas and Eastern Europe.

Source: Company information.
Note: SIHI has a specialist steel foundry in Sheffield, UK.
(1) Refers to number of full time equivalent employees as at 30 November 2013.
(2) Asia includes Australia region.
Sales Acceleration & Leveraging Platform Drive Value

- Leverage high quality vacuum pumps and niche fluid pumps across Flowserve’s global sales presence
- SIHI’s solid installed base of pumps provides opportunities for Flowserve seal products
- Aftermarket opportunities on SIHI installed base utilizing Flowserve’s global Quick Response Centers

- Leverage Flowserve’s global supply chain and low-cost sourcing network
- Optimize combined manufacturing and aftermarket footprint between high-quality FLS & SIHI facilities

- Plan to double the expected 2014 EBITDA by 2017 through growth and synergy realization
- Post-integration & PPA operating margins, SIHI will support IPD’s 14-15% target range

- Immediately EPS accretive excluding purchase price accounting (PPA) and transaction/integration costs
- Modestly GAAP accretive in 2016, with full annualized run-rate synergies in place by year end
- PPA, with transaction and integration costs, result in expected 2015 GAAP EPS dilution of ~ $0.25

- Purchase price funded with cash on hand and debt
- Post purchase Debt/EBITDA comfortably within Flowserve’s targeted 1-to-2 times leverage range
Key Financial Highlights:

**Significant Opportunity for Value Enhancement**

- Purchase price of €298 million for SIHI equity
  - Implied 2014(e) EBITDA multiple of ~10x before synergies and 1.1x 2014(e) sales
  - Incorporating full benefit of expected annualized synergies, implied multiple is below 7x EBITDA
- Anticipate funding through foreign cash and incremental debt
  - Creates opportunity to utilize current and future overseas “trapped” cash
- Structure: purchase of equity ownership
- Expect to generate significant synergies through growth, leverage and cost
- Textbook example of Flowserve’s disciplined M&A approach
  - Immediately accretive to EPS absent PPA & transaction/integration costs
  - Expected to be accretive to GAAP EPS in 2016 and beyond
## Timeline to Expected Close

### Summary: SIHI Exemplifies M&A Strategy

<table>
<thead>
<tr>
<th>Achieving Key Strategic Objectives</th>
<th>Rationale for Acquisition of SIHI</th>
</tr>
</thead>
</table>
| **Invest in markets/units that “earned the right to grow”** | • Significant progress in IPD operating platform excellence  
• Demonstrated success in integrating past acquisitions including Lawrence Pumps and Innomag |
| **Niche, bolt-on top line growth** | • Products include high quality vacuum pumps and niche fluid pumps with little Flowserve product overlap  
• SIHI installed pump base provides Flowserve seal opportunities |
| **Attractive businesses, markets and filling gaps** | • Vacuum pumps are additive to Flowserve’s pump portfolio  
• Leading provider in demanding process industry applications  
• High product exposure to chemical market, significantly increases Flowserve’s exposure to EMA |
| **Strong fit with our competitive advantages** | • Leverage Flowserve’s worldwide sales force to drive SIHI’s vacuum pumps into growth regions  
• Large installed base supports aftermarket sales synergies |
| **Drive long-term value** | • Quickly accretive; IRR exceeds WACC  
• Opportunities to reinforce core business, markets and operating platform to improve profitability |

**SIHI acquisition supports long-term profitable growth and increased shareholder value**
